Welcome to Exa Physician Portal

This manual describes how providers can use Physician Portal. Before you begin, obtain account credentials from your site administrator. By default, those credentials allow you to view and modify any patient records that specify you as the referring provider or CC provider. Your credentials also give you read-only access to the records of patients from other providers in your Provider Group. In addition, there is a Break the Glass feature that makes other records available to you.

Introduction

Symbols

The following symbols may appear in the product documentation or on the product.

Symbol	Symbol Name	Symbol Description	Standard Number and Name	Symbol Reference Number
	Manufacturer	Indicates the name and address of the manufacturer	ISO 15223-1:2021	5.1.1
EC REP	Authorized Representative in the European Economic Area (EEA)	ISO 15223-1:2021	5.1.2	
	Date of Manufacture	Indicates the date when the device was manufactured.	ISO 15223-1:2021	5.1.3
	Caution	Indicates information that is important for preventing loss of data or misuse of the software.	ISO 15223-1:2021	5.4.4
LOT	Batch Code Indicates the full Software Release / Vers number		ISO 15233-1:2021	5.1.5
SN	Serial number	Indicates the manufacturer's serial number so that a specific medical device can be identified	ISO 15233-1:2021	5.1.7
REF	Catalogue Indicates the manufacturer's catalogue numl so that the device can be identified		ISO 15233-1:2021	5.1.6
i	Consult instructions for use	Indicates the need for the user to consult the instructions for use	ISO 15233-1:2021	5.4.3

System requirements

The following are the minimum system requirements for clients of Exa PACS/RIS.

Workstation - User

Component	Specification
CPU	Intel® Core™ series, 4 cores, 8 threads @ 3.0 GHz
RAM	8 GB
Graphics	Integrated - Intel Iris Xe Graphics card must be compatible with and support required resolution on each display, as well as total resolution for all displays.
NIC	Single 1000 MB/s
Storage	SDD, 256 GB
OS	Windows 11 Pro
Display	16:9 Aspect Ratio, 1920 × 1080

Getting started with Physician Portal

Use Physician Portal

Patient Portal is a web app accessible from Exa PACS/RIS that provides a convenient place to request and view appointments, view your patients' medical records (patient chart), and to send documents requested by your healthcare providers (such as scans of your insurance card).

Sign in to Physician Portal

1. In Chrome, go the URL provided to you by your administrator or Konica Minolta.

KONICA MINOLTA	LOGIN
PHYSICIAN PORTAL What you can do using your secure portal	twfad
	✓ Lagree to the HIPAA Privacy Notice ✓ Remember Me
	LOGIN 0.1.16 RP-L
	Organizational News

2. On the right pane, type your sign-in credentials, select **I Agree to the HIPAA Notice**, and then select **LOGIN**.

Result: The Portal opens to the My Exams worklist, showing all exams with which you are associated.

View group exams, pending orders, and appointments

You can view a worklist that includes all patients seen by all members of your provider group. You can view worklists of pending orders and appointments.

1. Select **Line** to open the **GROUP EXAMS** worklist.

View locations

You can open a list of healthcare locations associated with your provider group.

1. Select **?** to open the locations list.

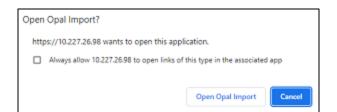

Import images

You can import images into studies, such as when a patient brings priors on a CD from another healthcare provider. Imported images appear as new studies on the My Exams worklist of the referring provider. If you or a member of your provider group were not the referring provider, you would have to "break the glass" to view them in Physician Portal.

1. On the My Exams worklist, select the import button, and then select Open Opal Import.

2. In the **OpalImport** window, select **Modify Demographics**., and then select **Select Files/Folder or DICOMDIR to Import**.

3 OpalImport		-	• ×

Burn studies to media

You can burn DICOM studies on the My Exam worklist to a hard disc or removable disc.

Prerequisite: Install Exa Burner.

- 1. On the My Exams worklist, select the checkboxes of studies that you want to burn to media.
- 2. Select the CD Burn button, and then select Open Exa Burner.

Result: Exa Burner opens.

🜠 Exa Burner v2.5.6.172				- 🗆	\times

3. In Exa Burner, select the following options as needed.

Setting	Description
Include Viewer	Select to burn a viewer program onto the disc along with the items. Required for viewing off site.
Cache Images	Select to keep items in the Viewer cache folder (and not remove them after burning).
Anonymize DICOMs	Select to remove identifying patient demographics.
Fix Split BTO	Select to combine multi-frame mammograms into a single DICOM file.
Create Annotations Overlay	Select to convert annotations to an overlay and include them with the images.
Remove Annotations	Select to omit annotations from the burned items.
Force SOP Class ID for All Files	Select to set the Modality tag (0008, 0060) to the value in the DICOM file's SOP Class ID.
Compression	Select a compression algorithm.
Report	Select a report storing method.

Setting	Description
Write to Hard Drive	Select whether to write to the hard disc or removable disc.
Burn to Disc	
Path	Select the ellipsis button and then browse for and select a destination drive and/or path.
Eject When Finished	Select to eject the disc after burning.
Close Media	Select to finalize the media after burning so that it is no longer available for writing.

- 4. If using a removable disc, insert the disc in the burner.
- 5. Select **START**.

Create a worklist filter

You can create a filter to customize what information appears on the My Exams worklist.

1. On the **My Exams** worklist, select the **Create Filter** button.

2. In the **Filter Settings** screen, type a filter name, and then select columns and type values by which to filter.

Example: To show only patients whose names begin with "W" :

FILTER SETTINGS	Х
Filter Name "W" patients only Filter Columns	SAVE BACK CLEAR
✓ Patient Name	W

- 5. Optional. Enter notes.
- 6. Under Linked Study, select to which exam you want to add the document.
- 7. Select **SELECT**, and then browse for and select a document to add.

8. Select UPLOAD.

Result: The document is added to the exam, and the patient document list appears.

Break the Glass

If the My Exam worklist contains studies for which you are not the referring or CC provider, and you have been granted the appropriate user rights, you have the option of using the Break the Glass feature to open those studies.

1. On the My Exams worklist, select the Break the Glass checkbox.

2. In the Break the Glass Warning screen, enter search criteria and select Search.

Create and schedule an exam

You can create and schedule an exam.

- 1. Select and then do one of the following.
 - To create a new patient, select **CREATE AND SCHEDULE**, and then skip to step 3.
 - To schedule an existing patient, find the patient by entering criteria and selecting **Search**.

Note: If this is the first time to order an exam for the patient, you must use Break the Glass.

About CDSM and AUC

The Protecting Access to Medicare Act (PAMA) of 2014 requires practitioners of advanced diagnostic imaging services such as CT, PET, NM, and MRI to consult a qualified *clinical decision support mechanism* (CDSM) before ordering exams for Medicare patients. CDSMs are online apps that use *appropriate use criteria* (AUC) to determine whether exams are clinically relevant (or, "appropriate"). By purchasing a license, Exa PACS/RIS can offer access to the LogicNets CDSM app through Physician Portal.

Create an order with CDSM

When creating orders for advanced imaging (CT, MR, NM, or PT), physicians can use CDSM to determine relevance for Medicare requirements.

Prerequisite: Obtain a license for CDMS functionality through your Konica Minolta representative.

Procedure

1. Follow the standard steps to create and schedule an exam, but on the **Patient Information** screen, select **Show More**.

Patient Informatior	Show More +	
Facility*	~	
Name *	2646-2	Tana a

2. and then enter the following settings as applicable.

Setting	Description
Facility	Select your facility.
Name	Type the name of the patient.
Address, Email, Phone	Type or select the address, email address, and phone numbers of the patient.
Ordering Facility	Type the ordering facility.
Ordering Physician	Type the name of the physician ordering the exam.
Modality	Select Computed Tomography, Magnetic Resonance, Nuclear Medicine, or Positron tomography.

Setting	Description
Appointment Type	Select an appointment type available for the modality.
Requesting Date	Type the date on which you want to perform the exam.
Account No./Alt	Type the patient's account number, PID, MRN, or alternate account number (auto-filled for existing patients).
Place of Service	Select a place of service.
Transportation	Select the mode of transportation the patient uses to go to the exam.
Referral Number	For referrals, type a referral number.
Patient Condition	Select the patient's expected condition on exam day.
Patient Location	If the patient is hospitalized, select the department.
Patient Room No.	If the patient is hospitalized, type the patient's room number.
Diagnostic Codes	Type in the box to dynamically search for a diagnostic code, and then select a code that matches the appointment type. You can add more than one code.
Reason	Type a reason for the exam.
Schedule Notes	Type notes for the scheduling staff.

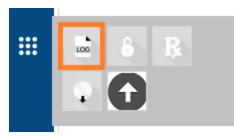

3. Select **ADD STUDY**.

- 4. Optional. Repeat the previous steps to add another study.
- 5. Select **CREATE ORDER**.
- If the AUC Requirement message appears, if the patient has Medicare insurance, select YES (or select NO to skip CDSM).
- 7. On the LogicNets Decision Engine page, answer the questions to obtain a determination.
- 8. If the CDSM recommends one or more different CPT codes, follow the on-screen instructions to change the codes and match them with appointment types. Select **OK**.
- 9. On the **Order Summary** page, select to **PRINT** or **UPLOAD** the summary, and then select **CLOSE**.

View the audit log

You can view an audit log of activity on Physician Portal.

1. On the admin menu, select the activity log button.

Result: The audit log opens with a list of entries.

	AUDIT LOGS			o

Configure passwords and two-factor authentication

You can reset your password at any time. If your site purchased a license, you can also configure two-factor authentication (2FA) as described below.

1. On the admin menu, select the security button.

2. In the My Account dialog, enter a new password, retype to confirm, and then select **SAVE**.

MY ACCOUNT	
RESET PASSWORD	
* Confirm Password	
TWO-FACTOR AUTHENTICATION	
Current Password	SHOW QR CODE
SAVE	CANCEL

3. Under **TWO-FACTOR AUTHENTICATION**, type your password, and then select **SHOW QR CODE**.

4. Use Google Authenticator to read the QR code and generate the one-time passcode, and the enter it into the box and select **Verify**.

Configure your user profile

You can edit your user profile directly in Physician Portal. The changes are updated in the Exa PACS/RIS database.

1. On the admin menu, select the profile button.

Result: The MY ACCOUNT screen appears with available settings.

MY ACCOU	NT					Χ	
Edit User Settings				Email:			
Name							
Todd		МІ	Wy		Suffix		
Title	Dr. Office Name	Phone	No.				
NPI No.		Federal Tax ID		Taxonomy Code	Taxonomy Code		
EIN No.		SSN		Medicare UPIN			
License No.		Medicaid Provider N	Medicaid Provider No.		Medicare Provider No.		
		SAVE	CANCEL				

2. Edit settings and select **SAVE**.

Sign an order

If staff configured a graphical signature file for you, you can add it to orders here. Your signature will appear on printed orders in Exa PACS/RIS.

- 1. Select 🛄 to go to the Pending Orders worklist.
- 2. In the worklist, double-click the exam you want to sign.

3. In the Are you sure to sign selected record(s)? message window, select OK.

Result: The order is signed, and removed from the Pending orders worklist.

Install Exa Burner

Before you can use the CD Burn function to burn studies to media, you must install the Exa Burner app by following these steps.

1. On the admin menu, select the Exa Burner button.

Result: Chrome downloads the ExaClientViewerSETUP.exe file.

2. Select the file to run, and follow the on-screen prompts.
