**FOR IMMEDIATE RELEASE**

## **Konica Minolta Healthcare Launches the Next-Generation Exa Platform Featuring Embedded Advanced Visualization Functionality**

Wayne, NJ, April 3, 2025 – Konica Minolta Healthcare Americas, Inc. has launched the next-generation of the Exa® Platform with the most advanced version of Exa PACS|RIS released to date, featuring a new API platform designed to integrate with strategic partners. The new API platform is foundational to Konica Minolta Healthcare IT's strategy of focusing on the Exa PACS|RIS core and integrating with best-in-class partner solutions to amplify the core, creating an integrated ecosystem to maximize customer success. As part of this new version of [Exa PACS|RIS](#), Konica Minolta is also introducing Exa Advanced Imaging with improved Multi Planar Reconstruction (MPR) functionality and full 3D generated image reconstruction and segmentation. Native to Exa PACS, clinicians have access to advanced functionality without leaving the Exa viewer, streamlining workflow and saving them time and clicks to focus on patient care.

The Exa PAC|RIS ecosystem features [NewVue](#), a cloud-native, AI-powered radiologist worklist and workflow orchestrator that drives efficiency, growth, and radiologist well-being, [Clearpath Technologies'](#) automated platform to share records and images digitally with any requester: Patients, Providers, Legal, and [Quinsite's](#) Comprehensive Healthcare Analytics Platform™ that empowers healthcare organizations with actionable insights for data-driven decision-making.

“With this latest version of the Exa Platform, Konica Minolta delivers immediate benefits to our customer while at the same time delivering a platform for the future,” says Matthew Andersen, Executive Director Product Management, Konica Minolta HCIT. “Confident diagnosis requires more than a single imaging study—it demands the right information, in the right place, at the right time. Our next-generation Exa PACS|RIS delivers powerful clinical and workflow tools, transforming data into actionable insights for smarter decision-making.”

The new version of Exa PACS|RIS follows the introduction of [Exa Enterprise](#), an integrated PACS and Vendor Neutral Archive (VNA) with a universal viewer across specialties with partner [Apollo Enterprise Imaging](#), in November 2024. Exa Enterprise with Exa PACS|RIS and Apollo's arcc® provides workflow, image viewing and archiving for radiologists and all specialties.

**About Konica Minolta Healthcare Americas, Inc.**

Konica Minolta Healthcare is a world-class provider and market leader in medical diagnostic imaging and healthcare information technology. The company's focus is to contribute to life changing advances through the transformation of primary imaging, allowing the invisible to be seen. Primary imaging, the most commonly used medical imaging technologies, include X-ray and imaging management systems. By advancing these readily available technologies, we can bring greater diagnostic capabilities to the greatest number of people.

With 150 years of endless innovation, imaging is in Konica Minolta's DNA. From roots as a camera and film manufacturer, the company has cultivated its own technologies and continues to evolve techniques for visualizing what is not visible. Innovation allows the company to be a strong strategic partner, understanding what value means to customers and how Konica Minolta's innovations can address specific needs and lead to better decisions, sooner.

Konica Minolta Healthcare Americas, Inc., headquartered in Wayne, NJ, is a division of Konica Minolta, Inc. For more information on Konica Minolta Healthcare Americas, Inc., follow us on [LinkedIn](#), [X](#) and [Facebook](#), or visit <https://healthcare.konicaminolta.us>.
