Welcome to Exa Physician Portal

This manual describes how providers can use Physician Portal. Before you begin, obtain account credentials from your site administrator. By default, those credentials allow you to view and modify any patient records that specify you as the referring provider or CC provider. Your credentials also give you read-only access to the records of patients from other providers in your Provider Group. In addition, there is a Break the Glass feature that makes other records available to you.

Introduction

Symbols

The following symbols may appear in the product documentation or on the product.

Symbol	Symbol Name	Symbol Description	Standard Number and Name	Symbol Reference Number
	Manufacturer	Indicates the name and address of the manufacturer	ISO 15223-1:2021	5.1.1
	Authorized Representative in the European Economic Area (EEA)	Indicates the Authorized Representative, responsible for the device in the European Economic Area (EEA).	ISO 15223-1:2021	5.1.2
	Date of Manufacture	Indicates the date when the device was manufactured.	ISO 15223-1:2021	5.1.3
	Caution	Indicates information that is important for preventing loss of data or misuse of the software.	ISO 15223-1:2021	5.4.4
	Batch Code	Indicates the full Software Release / Version number	ISO 15233-1:2021	5.1.5
	Serial number	Indicates the manufacturer's serial number so that a specific medical device can be identified	ISO 15233-1:2021	5.1.7
	Catalogue Number	Indicates the manufacturer's catalogue number so that the device can be identified	ISO 15233-1:2021	5.1.6
	Consult instructions for use	Indicates the need for the user to consult the instructions for use	ISO 15233-1:2021	5.4.3
	Prescription Device	Caution: Federal law restricts this device to sale by or on the order of a licensed healthcare practitioner	21 CFR 801.109(b)(1) Prescription Devices	N/A

Getting started with Physician Portal

Use Physician Portal

Patient Portal is a web app accessible from Exa PACS/RIS that provides a convenient place to request and view appointments, view your patients' medical records (patient chart), and to send documents requested by your healthcare providers (such as scans of your insurance card).

Sign in to Physician Portal

1. In Chrome, go the URL provided to you by your administrator or Konica Minolta.

2. On the right pane, type your sign-in credentials, select I Agree to the HIPAA Notice, and then select LOGIN.

Result: The Portal opens to the My Exams worklist, showing all exams with which you are associated (as the primary or "other" physician).

PATIENT NAME	DATE OF BIRTH	STUDY DESCRIPTION	STUDY STATUS	STUDY DATE
Wy ., Todd	196	CT THRC SPI C+ MATRL	Scheduled	2023-05-11 9:00 AM
Test, Sue	2000-01-01	CT LMBR SPI C-MATRL	Approved	2022-12-09 11:45 AM

Navigation bar

The navigation pane always appears on the left side of the screen, giving you quick access to main features.

- [Sign out](#)
- [New appointment](#)
- [Locations](#)
- [Patient list](#)
- [My exams](#)
- [Group exams](#)
- [Pending orders](#)
- [Pending appointments](#)
- [Admin menu](#)

Open images and approved reports

You can open images and reports for viewing and printing.

1. Select  to open the MY EXAMS worklist.

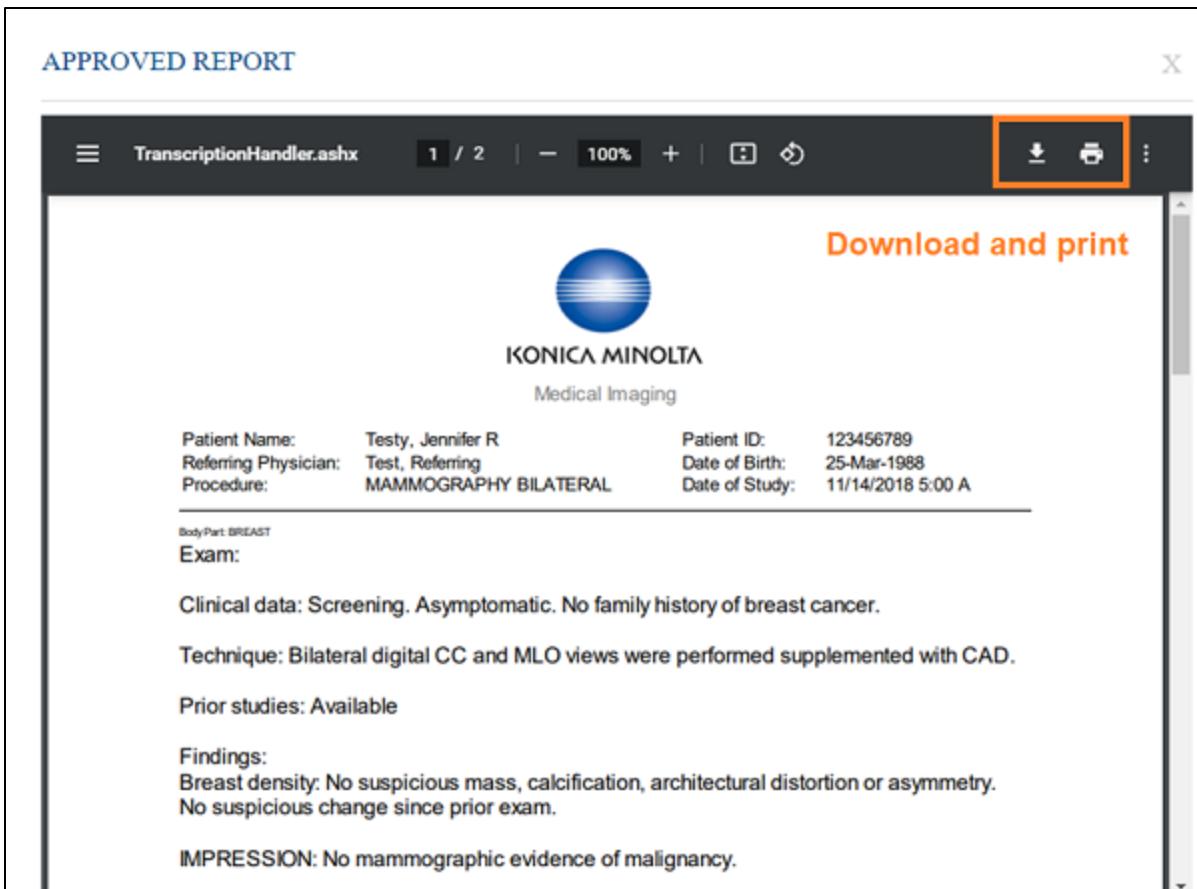

2. Find the study of the images to view.

To filter or sort the worklist, type or select search criteria in column headers.

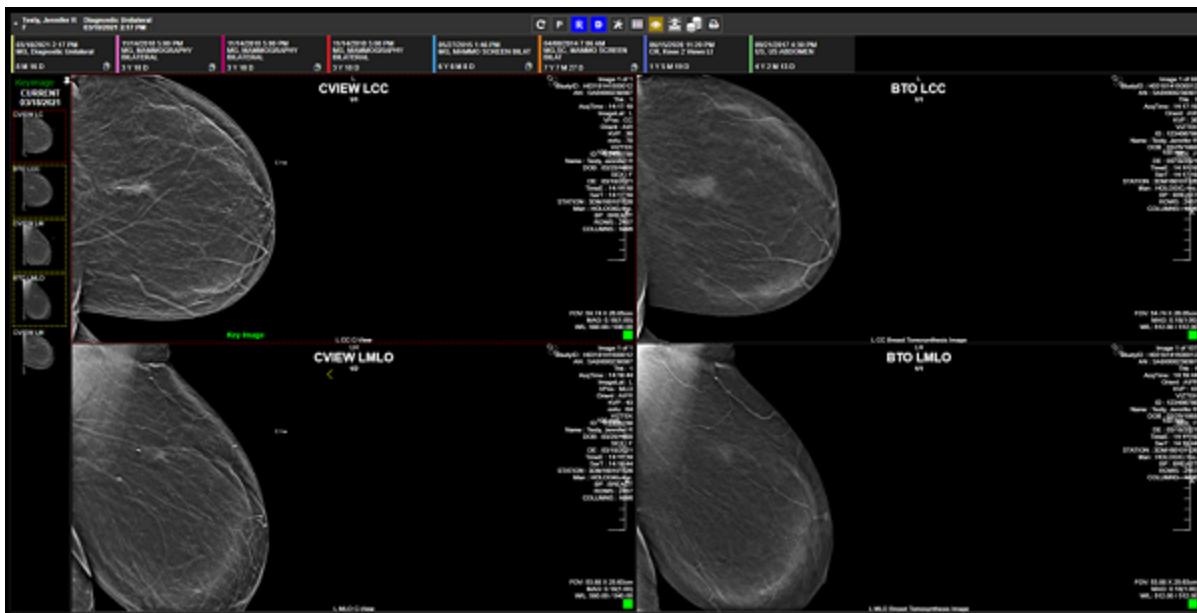

3. To view images, select the viewer  button.
4. To view the approved report, select the report  button.

Example of an approved report:

A screenshot of a web-based medical report viewer. The title 'APPROVED REPORT' is at the top. Below it is a toolbar with a download icon, a print icon, and a three-dot menu icon, all highlighted with an orange box. The report content includes the KONICA MINOLTA Medical Imaging logo. Patient information: Patient Name: Testy, Jennifer R, Referring Physician: Test, Referring, Procedure: MAMMOGRAPHY BILATERAL. Report ID: 123456789, Date of Birth: 25-Mar-1988, Date of Study: 11/14/2018 5:00 A. Body Part: BREAST, Exam: MAMMOGRAPHY BILATERAL. Clinical data: Screening. Asymptomatic. No family history of breast cancer. Technique: Bilateral digital CC and MLO views were performed supplemented with CAD. Prior studies: Available. Findings: Breast density: No suspicious mass, calcification, architectural distortion or asymmetry. No suspicious change since prior exam. Impression: No mammographic evidence of malignancy. A large orange 'Download and print' button is located on the right side of the report area.

Example of an image open in the viewer

In the viewer tool bar, the following tools are available.

Refresh - Refresh the viewer

Notes - View study notes

Reports - View prior reports

Documents - View patient documents

Settings - Adjust viewer settings

Tools

Layout - Change the frame layout

Overlays - Show or hide overlays

Cutlines - Show or hide cutlines

Slices - Change slice thickness

Print - Print the images

View group exams, pending orders, and appointments

You can view a worklist that includes all patients seen by all members of your provider group. You can view worklists of pending orders and appointments.

1. Select  to open the GROUP EXAMS worklist.

GROUP EXAMS								
PATIENT NAME	DATE OF BIRTH	STUDY DESCRIPTION	STUDY STATUS	STUDY DATE	ACCESSION NO.	FACILITY	MODALITY	REFERRING PHYSICIAN
Gates, Ade	01/31/1996	ABDOMEN X-RAY	Scheduled	11/16/2021 12:00 AM EST	376	Pineapple Under The Sea	Computed Radiography	Doctor, Test

Import images

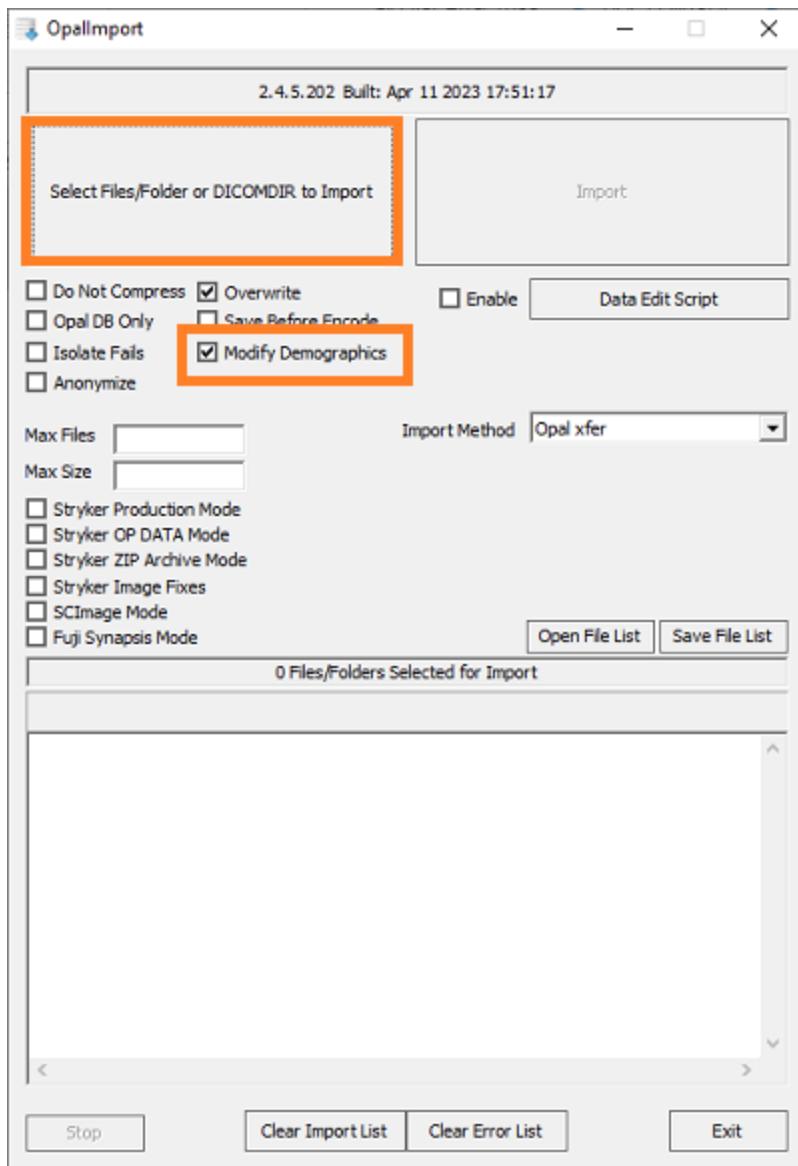

You can import images into studies, such as when a patient brings priors on a CD from another healthcare provider. Imported images appear as new studies on the My Exams worklist of the referring provider. If you or a member of your provider group were not the referring provider, you would have to "break the glass" to view them in Physician Portal.

Prerequisite: From the admin menu, install Opal Import.

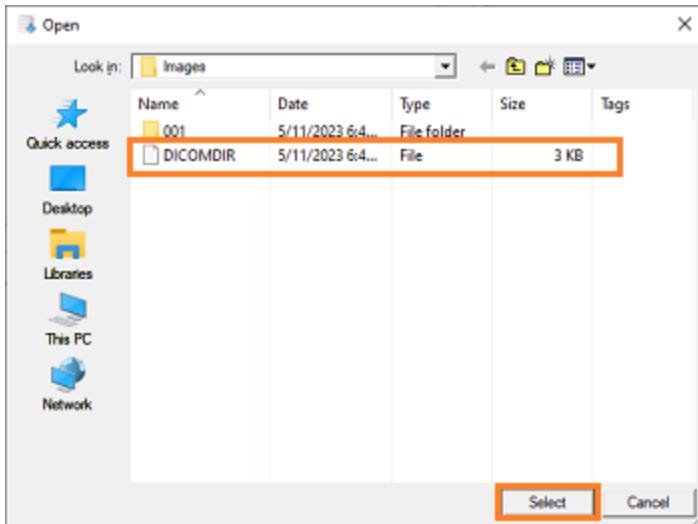

1. On the My Exams worklist, select the import button, and then select Open Opal Import.

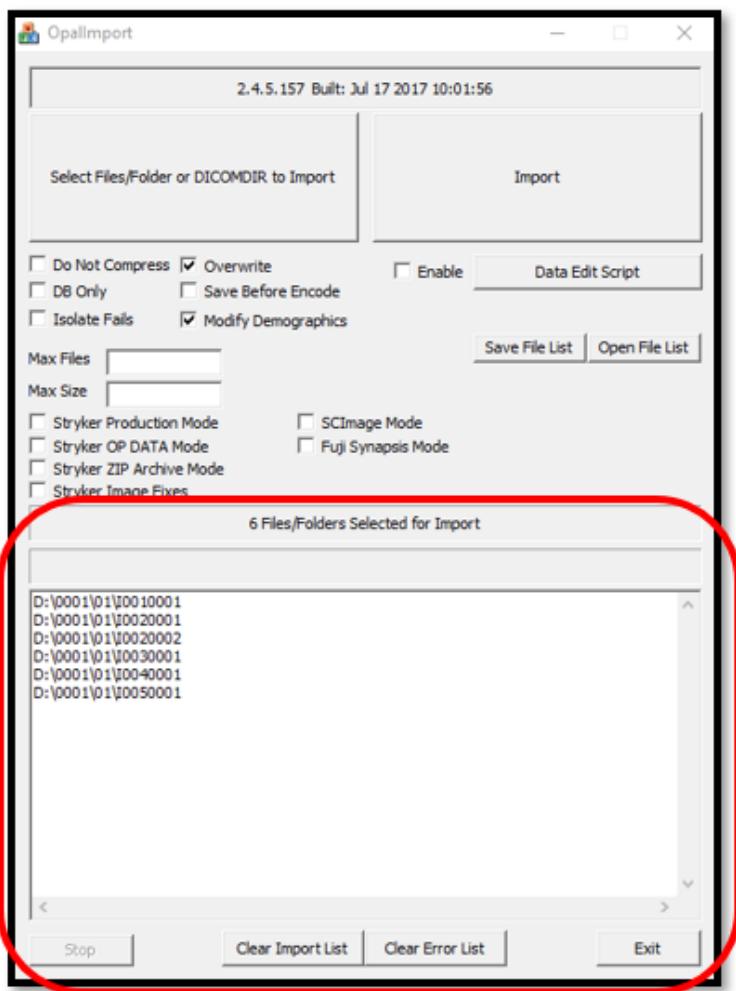

2. In the OpallImport window, select Modify Demographics., and then select Select Files/Folder or DICOMDIR to Import.

3. Browse for and select the DICOMDIR file.

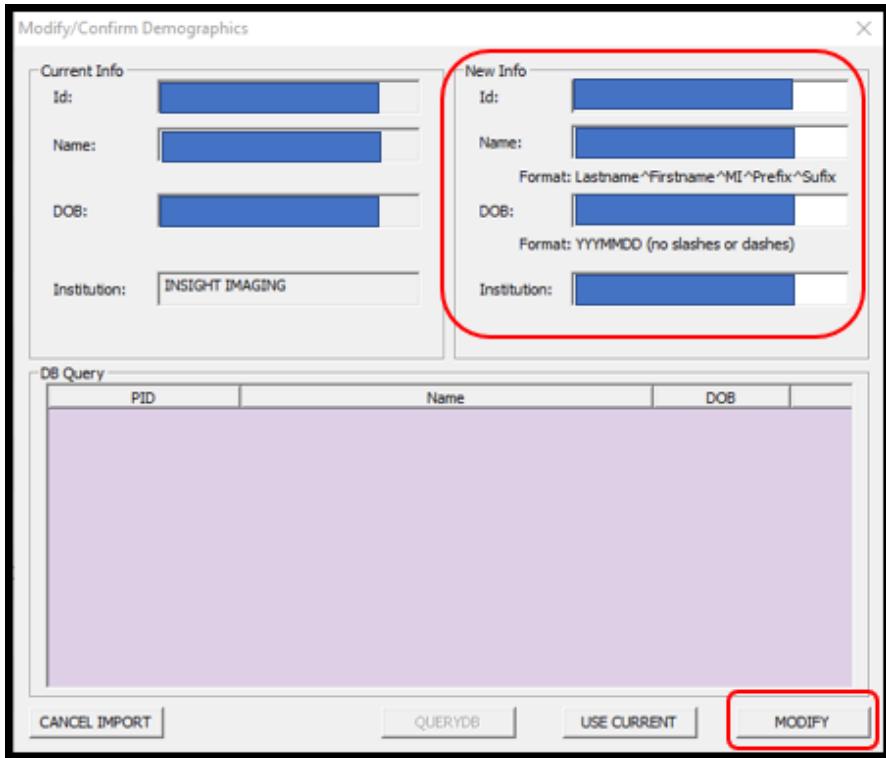

4. The selected files appear in the white box, and the status box indicates the number of files selected for import.

5. Select Import.

6. In the Modify/Confirm Demographics screen, enter matching demographics in the proper format for your facility, and then select MODIFY.

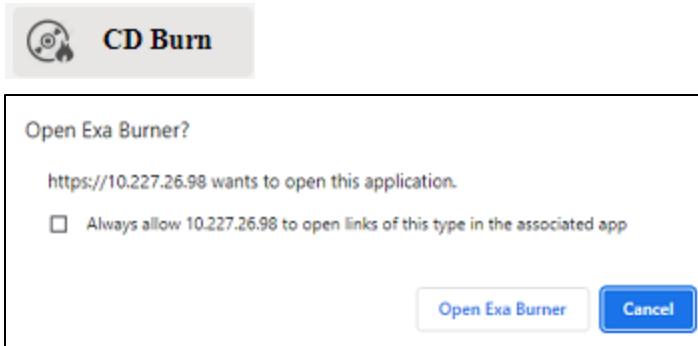

Result: The images are imported.

Burn studies to media

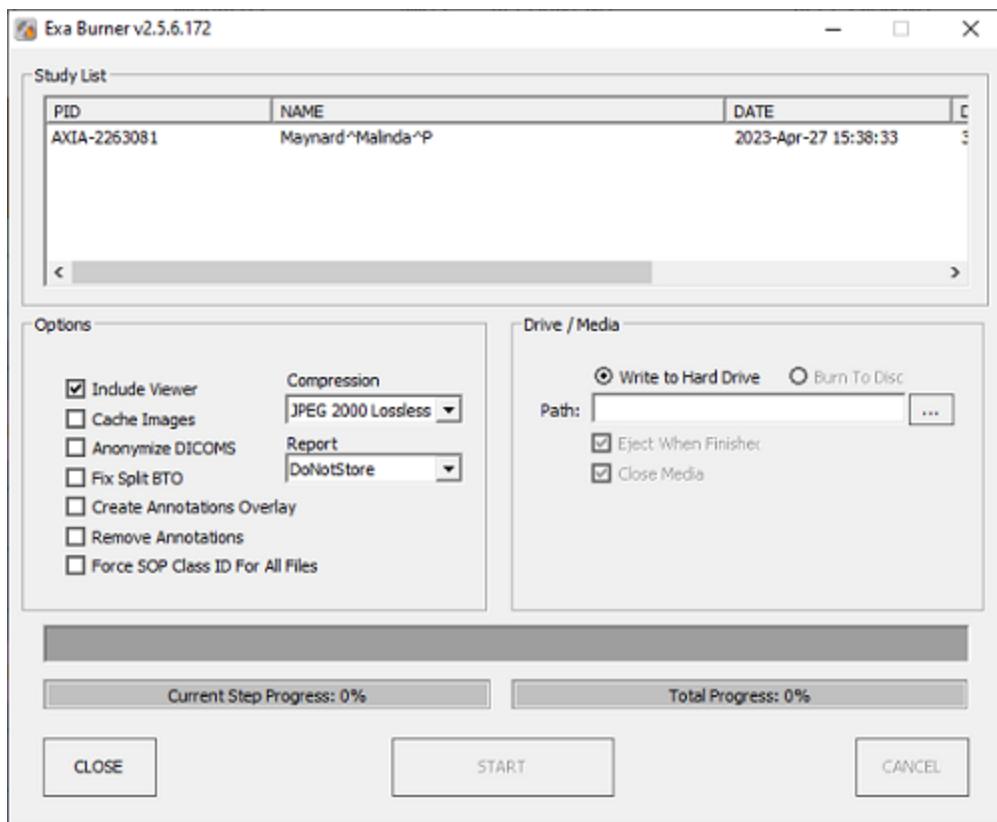

You can burn DICOM studies on the My Exam worklist to a hard disc or removable disc.

Prerequisite: [Install Exa Burner](#).

1. On the My Exams worklist, select the checkboxes of studies that you want to burn to media.
2. Select the CD Burn button, and then select Open Exa Burner.

Result: Exa Burner opens.

3. In Exa Burner, select the following options as needed.

Setting	Description
Include Viewer	Select to burn a viewer program onto the disc along with the items. Required for viewing off site.
Cache Images	Select to keep items in the Viewer cache folder (and not remove them after burning).
Anonymize DICOMs	Select to remove identifying patient demographics.
Fix Split BTO	Select to combine multi-frame mammograms into a single DICOM file.
Create Annotations Overlay	Select to convert annotations to an overlay and include them with the images.
Remove Annotations	Select to omit annotations from the burned items.
Force SOP Class ID for All Files	Select to set the Modality tag (0008, 0060) to the value in the DICOM file's SOP Class ID.
Compression	Select a compression algorithm.
Report	Select a report storing method.
Write to Hard Drive	Select whether to write to the hard disc or removable disc.
Burn to Disc	
Path	Select the ellipsis button and then browse for and select a destination drive and/or path.

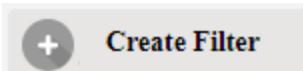

Setting	Description
Eject When Finished	Select to eject the disc after burning.
Close Media	Select to finalize the media after burning so that it is no longer available for writing.

4. If using a removable disc, insert the disc in the burner.
5. Select START.

Create or edit a worklist filter

You can create a filter to customize what information appears on the My Exams worklist.

1. On the My Exams worklist, select the Create Filter button.

2. In the Filter Settings screen, type a filter name, and then select columns and type values by which to filter.

Example: To show only patients whose names begin with "W" :

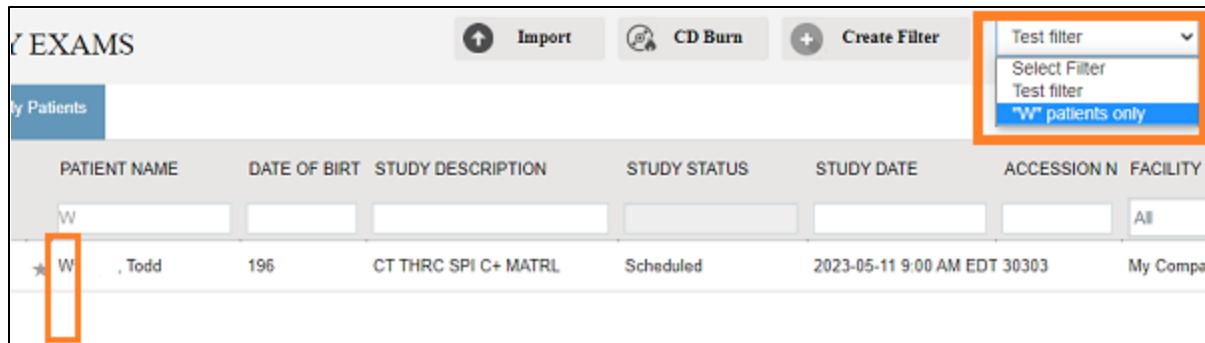

FILTER SETTINGS

Filter Name

SAVE
BACK
CLEAR

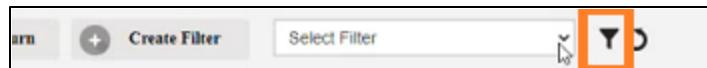

Filter Columns	Filter Values
<input checked="" type="checkbox"/> Patient Name	<input type="text" value="W"/>
<input type="checkbox"/> Date of Birth	
<input type="checkbox"/> Study Description	
<input type="checkbox"/> Study Date	
<input type="checkbox"/> Accession No.	
<input type="checkbox"/> Referring Physician	
<input type="checkbox"/> Facility	All All Please select
<input type="checkbox"/> Modality	
<input type="checkbox"/> Study Status	

3. Select SAVE.
4. To use the filter, select it in the Select filter dropdown list.

The screenshot shows the 'My Exams' screen. At the top, there are buttons for 'Import', 'CD Burn', and 'Create Filter'. A dropdown menu titled 'Test filter' is open, showing options: 'Select Filter', 'Test filter', and '"W" patients only', with the last option highlighted by a red box. Below the menu, there is a search bar with the letter 'W' and a list of exams. The first exam in the list is for 'W. Todd'.

5. To edit a filter, on the My Exams screen, select the filter settings button, and then select a filter to edit.

Open a patient chart

You can open a patient chart to view demographics and other patient related information.

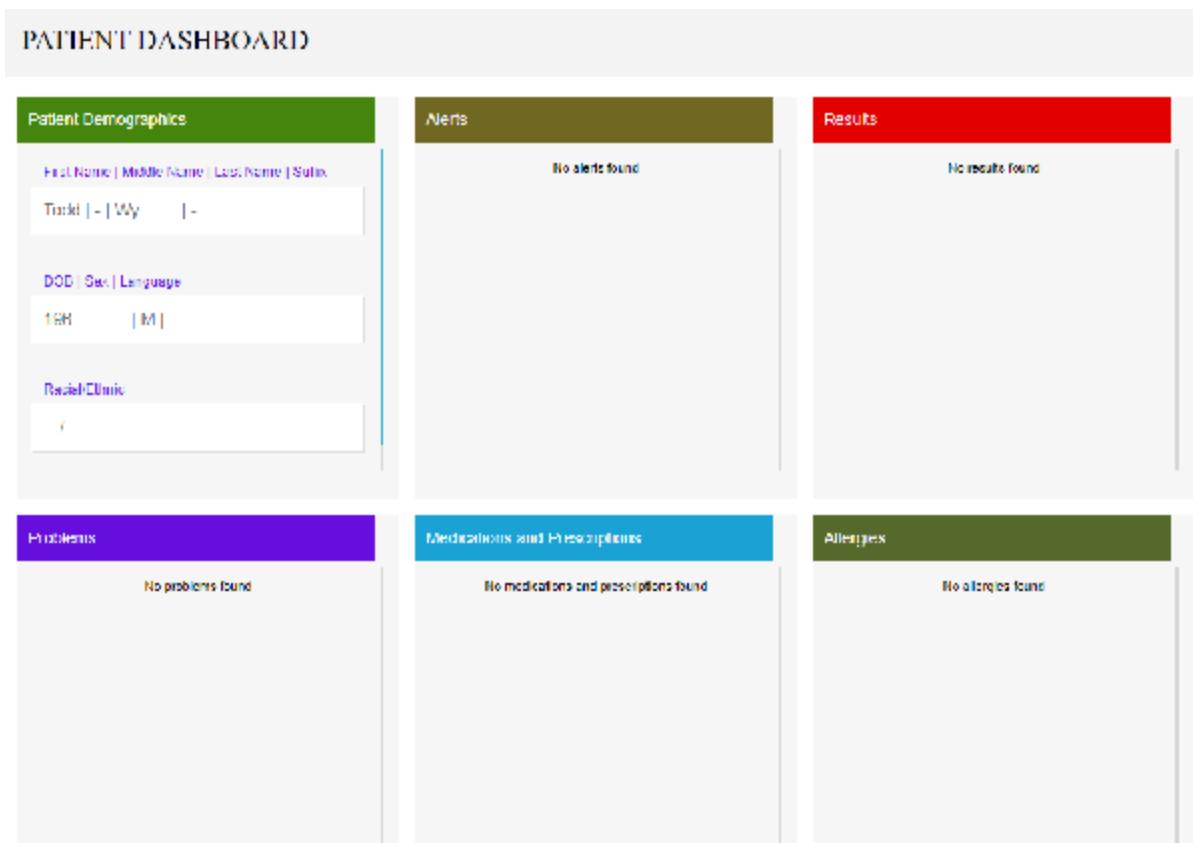

1. Select  to open the patient list.

The screenshot shows the 'PATIENT LIST' screen. The table has columns: PATIENT NAME, DOB, SEX, ACCOUNT NO., and ADDRESS. There are two entries:

PATIENT NAME	DOB	SEX	ACCOUNT NO.	ADDRESS
Test, Sue	2000-01-01	F	TesS3816	111 main st
W. Todd	196	M	tw123	

2. Double-click a patient to open the patient chart.

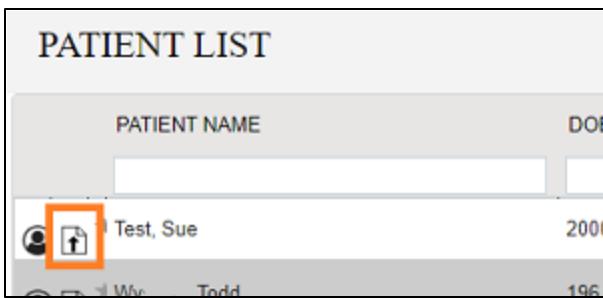

The Patient Dashboard interface is divided into several sections:

- Patient Demographics:** Shows fields for First Name, Middle Name, Last Name, Suffix, DOB, Sex, Language, and RadiiClinic.
- Alerts:** Displays a message "No alerts found".
- Results:** Displays a message "No results found".
- Problems:** Displays a message "No problems found".
- Medications and Prescriptions:** Displays a message "No medications and prescriptions found".
- Allergies:** Displays a message "No allergies found".

Attach a document to an exam

You can add a scanned document (such as an order form) to an exam. You can also view an existing document by double-clicking it in the patient document window described below.

1. Select  to open the patient list.
2. In the Patient List, in a patient row, select the Upload Patient Document button.

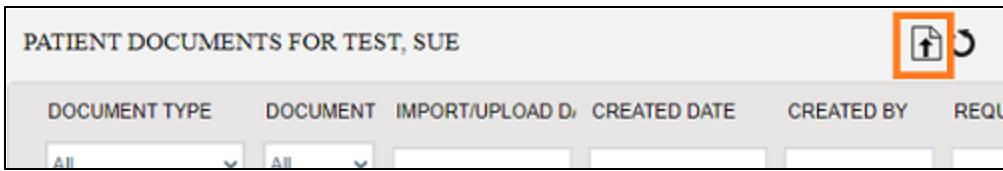

The Patient List interface shows a table of patients:

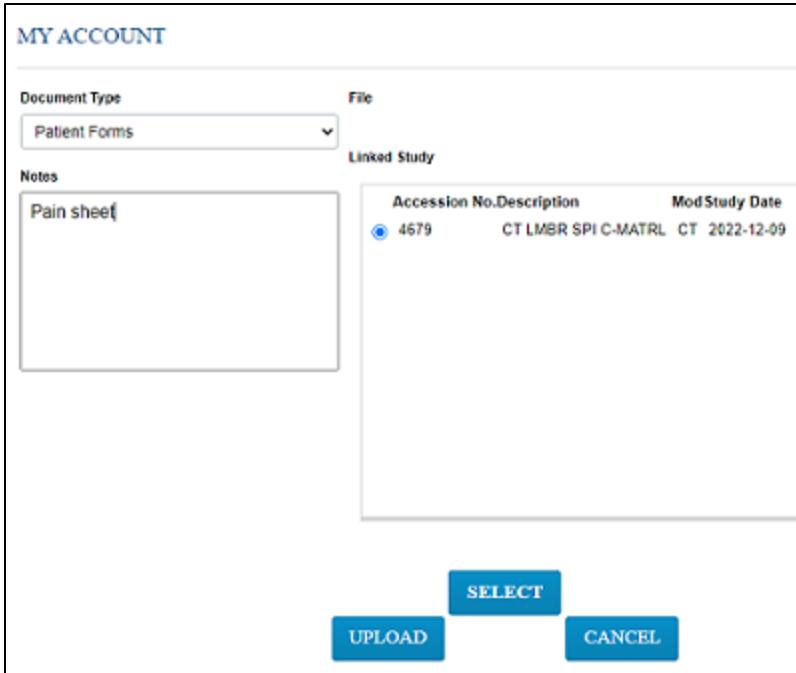

PATIENT LIST	
PATIENT NAME	DOB
Test, Sue	2000
Todd	196

An orange icon with a file and a camera symbol is positioned next to the "Test, Sue" row, indicating the location of the "Upload Patient Document" button.

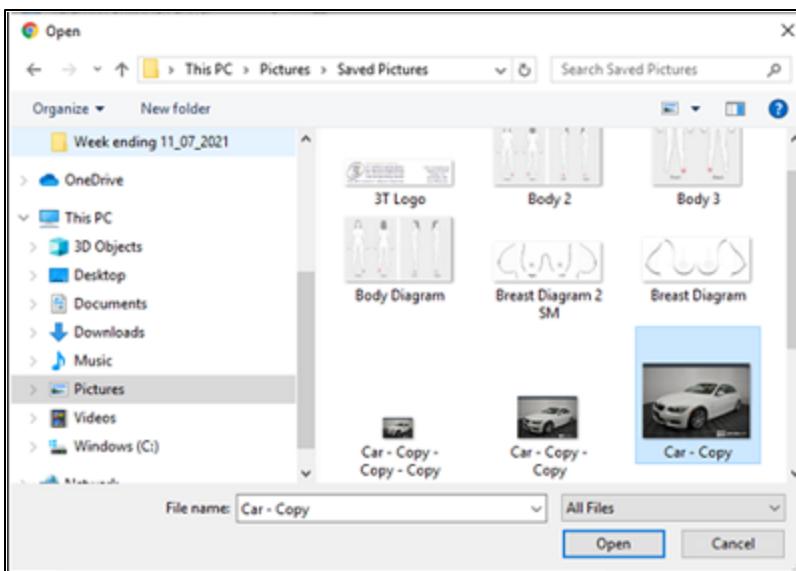

3. In the patient document window, select the Upload Patient Document button.

4. In the MY ACCOUNT window, select a document type.

5. Optional. Enter notes.
6. Under Linked Study, select to which exam you want to add the document.
7. Select SELECT, and then browse for and select a document to add.

8. Select UPLOAD.

Result: The document is added to the exam, and the patient document list appears.

Break the Glass

If the My Exam worklist contains studies for which you are not the referring or CC provider, and you have been granted the appropriate user rights, you have the option of using the Break the Glass feature to open those studies.

1. On the My Exams worklist, select the Break the Glass checkbox.

2. In the Break the Glass Warning screen, enter search criteria and select Search.

The screenshot shows a search interface titled 'BREAK THE GLASS WARNING'. At the top, there is a 'Patient Information' section with dropdown menus for 'Starts With' (set to 'All') and 'Show Inactive' (radio button selected). Below this are input fields for 'Test', 'Search by First Name', 'DOB', 'MRN', and 'Phone'. A large blue 'Search' button is located on the right side of the search bar. The entire search bar area is highlighted with a red rounded rectangle.

Result: Matching patients appear in the list.

3. Double-click the patient whose studies you want to open.

① BREAK THE GLASS WARNING

You are attempting to access a patient's record that has been deemed confidential. In order to proceed, please select a reason for accessing this record.

Access Reason

Verify your credential
.....

4. Select your Access Reason, enter your credentials, and then select ACCEPT.

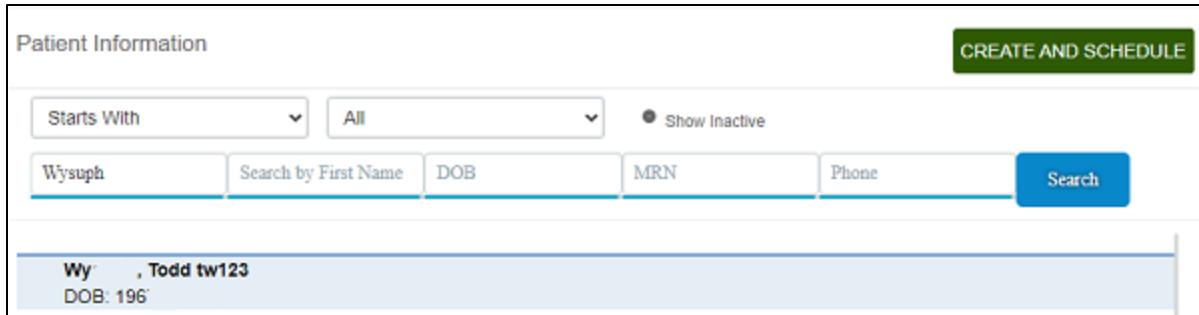

Result: A temporary worklist appears containing the studies of the patient you selected. If you log out of and back into Physician Portal, this worklist is not available unless you repeat the above procedure.

Create and schedule an exam

You can create an order for an exam. Staff at your facility receive the order and can schedule an appointment.

1. Select  and then do one of the following.
 - To create a new patient, select CREATE AND SCHEDULE, and then skip to step 3.
 - To schedule an existing patient, find the patient by entering criteria and selecting Search.

Note: If this is the first time to order an exam for the patient, you must use Break the Glass.

Configure passwords and two-factor authentication

You can reset your password at any time. If your site purchased a license, you can also configure two-factor authentication (2FA) as described below.

- On the admin menu, select the security button.

- In the My Account dialog, enter a new password, retype to confirm, and then select SAVE.

MY ACCOUNT

RESET PASSWORD

* New Password

* Confirm Password

SHOW QR CODE

SAVE **CANCEL**

3. Under TWO-FACTOR AUTHENTICATION, type your password, and then select SHOW QR CODE.

4. Use Google Authenticator to read the QR code and generate the one-time passcode, and enter it into the box and select Verify.

Configure your user account

You can edit your account (user profile) directly in Physician Portal. The changes are updated in the Exa PACS/RIS database.

1. On the admin menu, select the profile button.

Result: The MY ACCOUNT screen appears with available settings.

MY ACCOUNT

Edit User Settings

Name: Todd MI Wy Suffix

Title: Dr. Office Name: Phone No.:

NPI No. Federal Tax ID Taxonomy Code

EIN No. SSN Medicare UPIN

License No. Medicaid Provider No. Medicare Provider No.

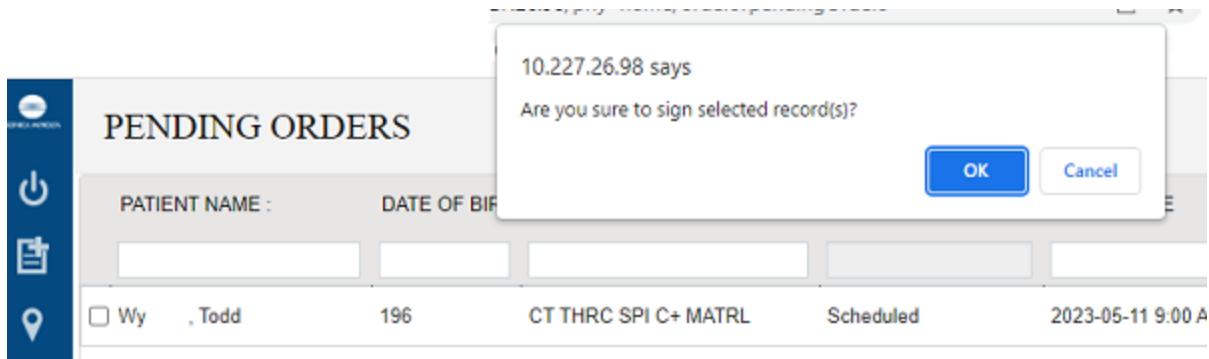

SAVE CANCEL

2. Edit settings and select SAVE.

Sign an order

If staff configured a graphical signature file for you, you can add it to orders here. Unsigned orders appear in the Unsigned Orders report if generated in Exa PACS/RIS. Signing an order removes it from that report, and updates the Physician Order Status field in Exa PACS/RIS (found in the Exam Information area of the Edit Study screen). Your signature appears on printed orders in Exa PACS/RIS.

1. Select  to go to the Pending Orders worklist.
2. In the worklist, double-click the exam you want to sign and then select the sign-off  button.

3. In the Are you sure to sign selected record(s)? message window, select OK.

Result: The order is signed, and removed from the Pending orders worklist.

Install Exa Burner

Before you can use the CD Burn function to burn studies to media, you must install the Exa Burner app by following these steps.

1. On the admin menu, select the Exa Burner button.

Result: Chrome downloads the ExaClientViewerSETUP.exe file.

2. Select the file to run, and follow the on-screen prompts.
