Get started with Attorney Portal

Before you begin, obtain account credentials from your site administrator. Those credentials allow you to use the functions of the portal to which you were granted rights.

Use Attorney Portal

Attorney Portal is a web app accessible from Exa PACS/RIS that provides a convenient place to request and view appointments, view your clients' medical records (patient charts), and to send documents requested by healthcare providers.

Sign in to Attorney Portal

1. In Chrome, go to the URL provided to you by your administrator or Konica Minolta.
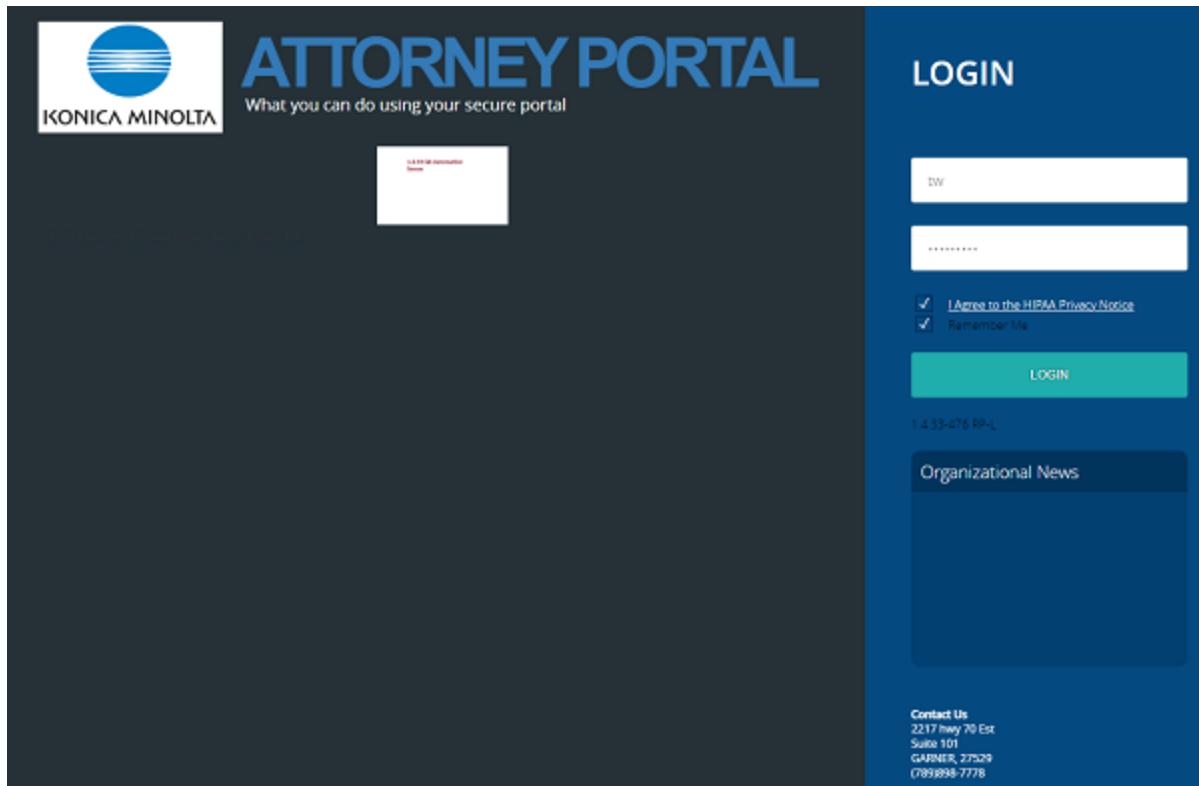

2. On the right pane, type your sign-in credentials, select I Agree to the HIPAA Notice, and then select LOGIN.

    Result: The Portal opens to the My Exams worklist, showing all exams for which you are the attorney.

Navigation bar

The navigation bar always appears on the left side of the screen, giving you quick access to main features.

Pending Appointments

Sub-Menu

Open images and approved reports

You can open images and reports for viewing and printing.

1. Select to open the MY EXAMS worklist.

2. Find the study of the images to view.

3. To view images, select the viewer button.

4. To view the approved report, select the report button.

Example of an approved report:

Example of an image open in the viewer
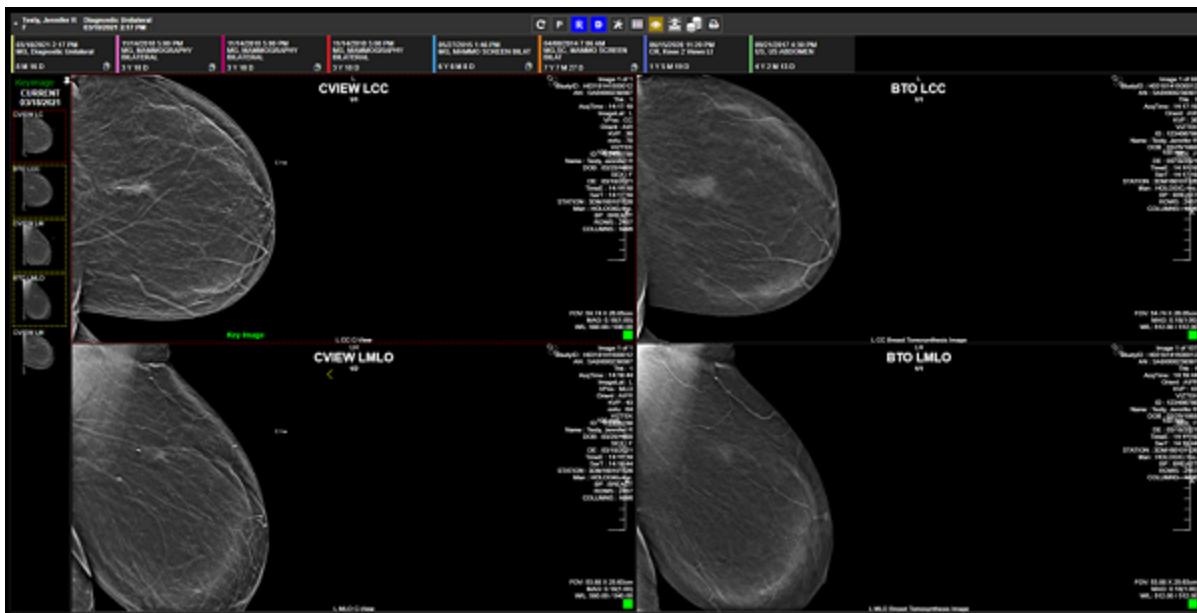

In the viewer tool bar, the following tools are available.

Refresh - Refresh the viewer

Notes - View study notes

Reports - View prior reports

Documents - View patient documents

Settings - Not available on Attorney Portal.

Tools

Layout - Change the frame layout

Overlays - Show or hide overlays

Cutlines - Show or hide cutlines

Slices - Change slice thickness

Print - Print the images

View group exams, pending orders, and appointments

You can view a worklist that includes all patients seen by all members of your provider group. You can view worklists of pending orders and appointments.

1.   Select to open the GROUP EXAMS worklist.

GROUP EXAMS

Import images

You can import images into studies, such as when a patient brings priors on a CD from another healthcare provider. Imported images appear as new studies on the My Exams worklist of the referring provider.

Prerequisite: From the admin menu, install Opal Import.

1. On the My Exams worklist, select the import button, and then select Open Opal Import.
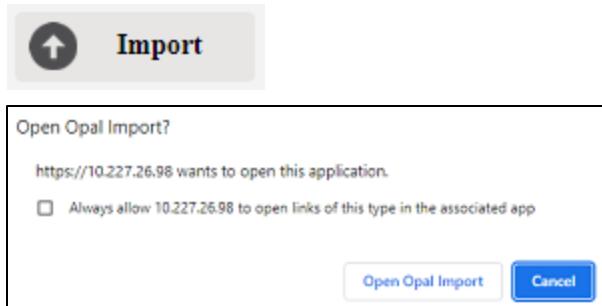

2. In the OpalImport window, select Modify Demographics., and then select Select Files/Folder or DICOMDIR to Import.
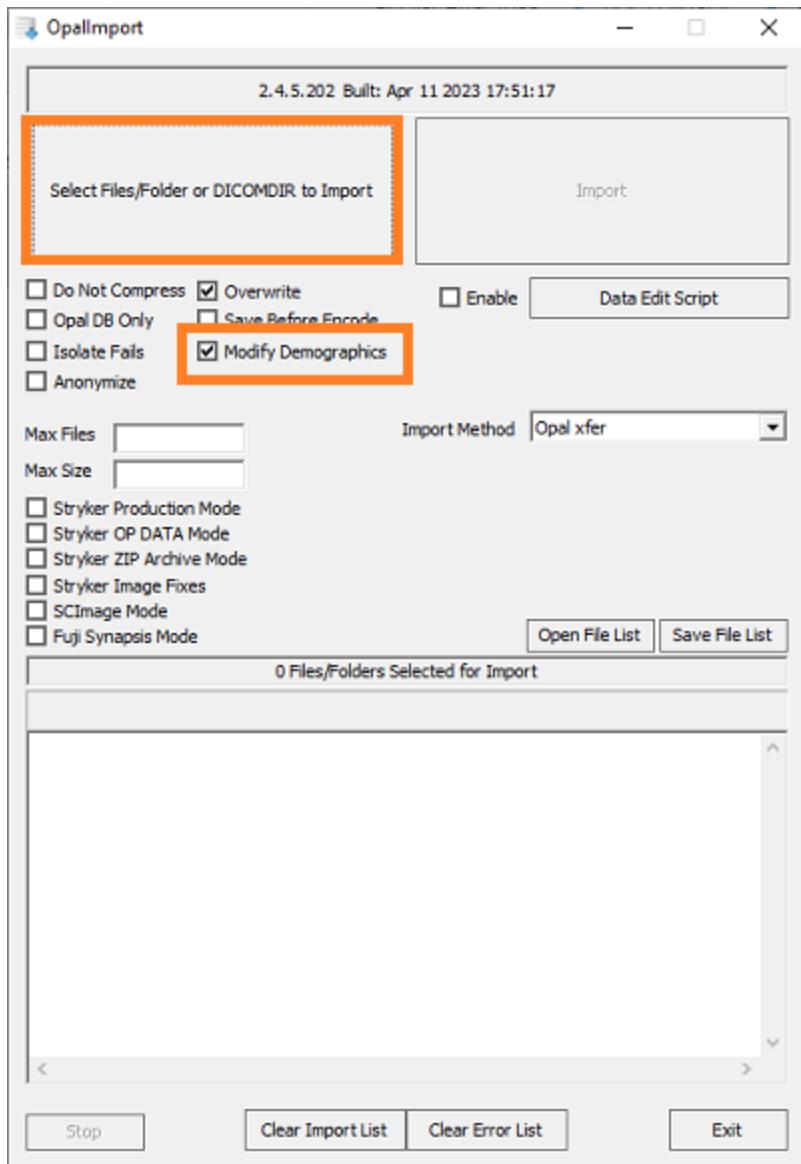

3. Browse for and select the DICOMDIR file.
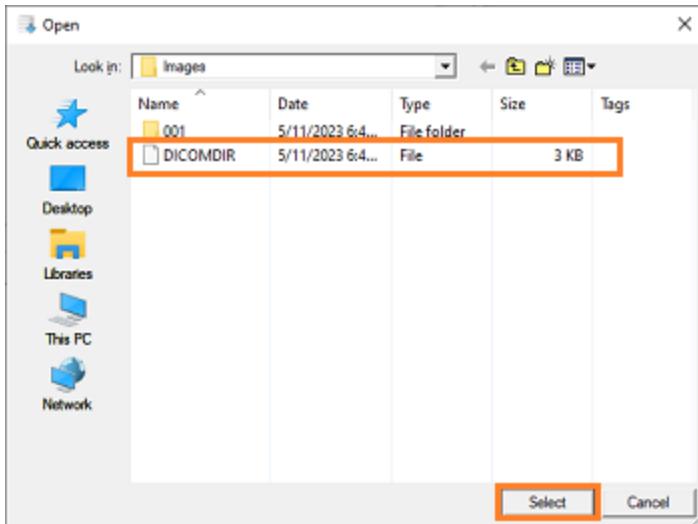

4. The selected files appear in the white box, and the status box indicates the number of files selected for import.
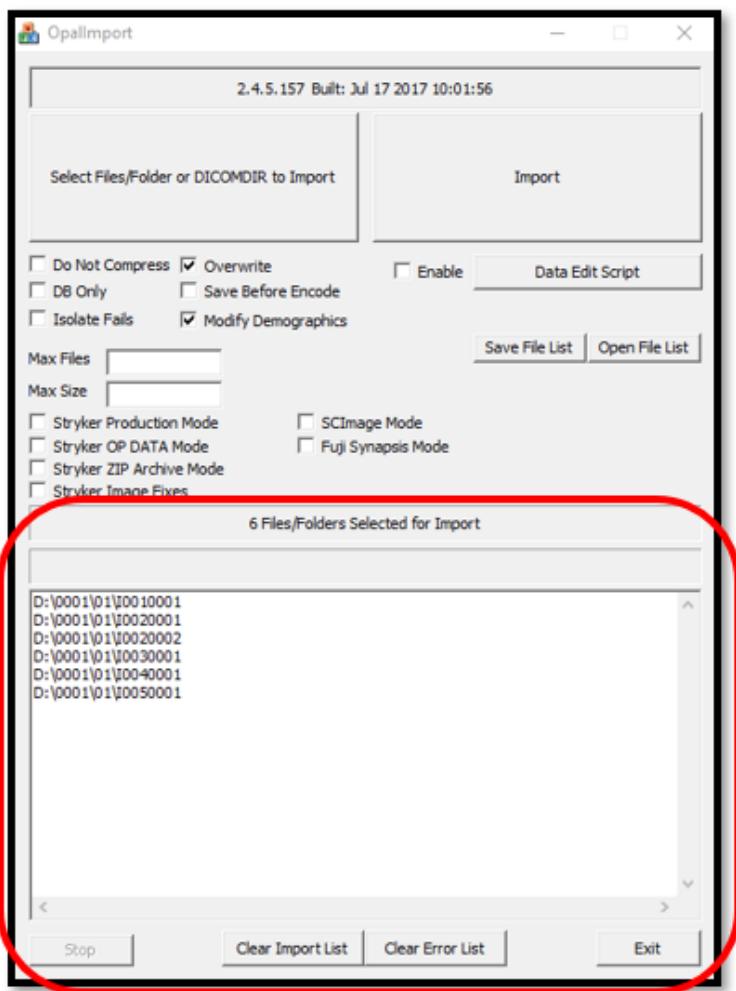

5. Select Import.

6. In the Modify/Confirm Demographics screen, enter matching demographics in the proper format for your facility, and then select MODIFY.

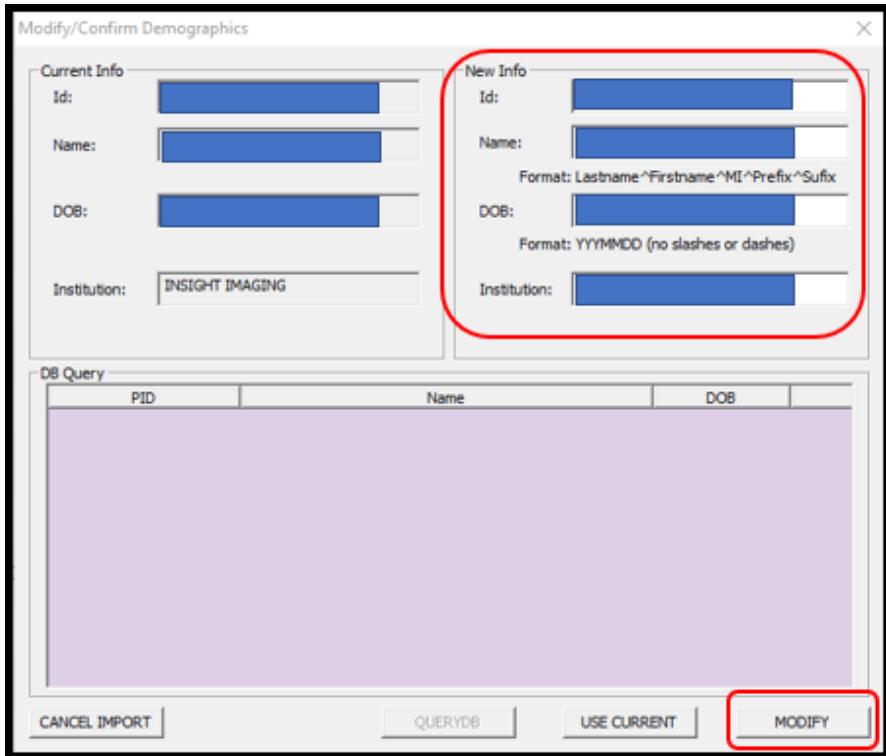

Result: The images are imported.

Burn studies to media

You can burn DICOM studies on the My Exam worklist to a hard disc or removable disc.

Prerequisite: [Install Exa Burner](#).

1. On the My Exams worklist, select the checkboxes of studies that you want to burn to media.

2. Select the CD Burn button, and then select Open Exa Burner.
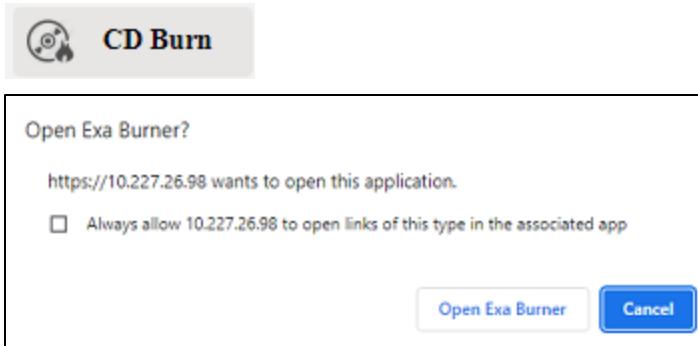

Result: Exa Burner opens.
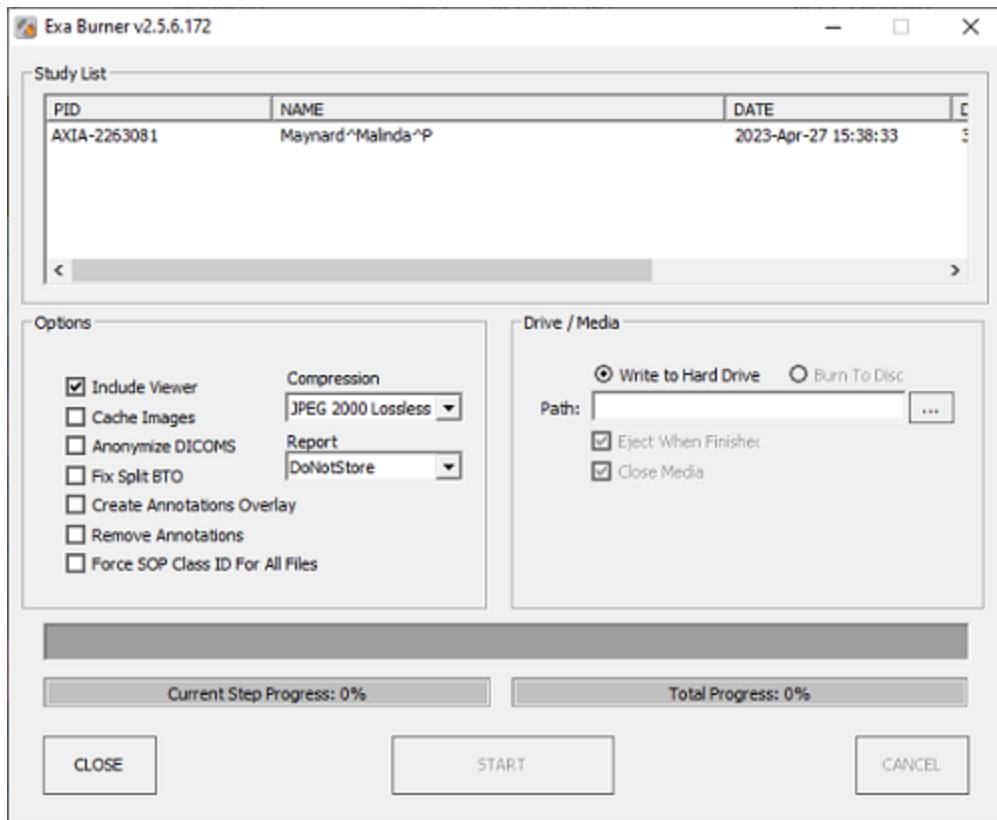

3. In Exa Burner, select the following options as needed.

Setting	Description
Include Viewer	Select to burn a viewer program onto the disc along with the items. Required for viewing off site.
Cache Images	Select to keep items in the Viewer cache folder (and not remove them after burning).
Anonymize DICOMs	Select to remove identifying patient demographics.
Fix Split BTO	Select to combine multi-frame mammograms into a single DICOM file.
Create Annotations Overlay	Select to convert annotations to an overlay and include them with the images.
Remove Annotations	Select to omit annotations from the burned items.
Force SOP Class ID for All Files	Select to set the Modality tag (0008, 0060) to the value in the DICOM file's SOP Class ID.
Compression	Select a compression algorithm.
Report	Select a report storing method.
Write to Hard Drive Burn to Disc	Select whether to write to the hard disc or removable disc.
Path	Select the ellipsis button and then browse for and select a destination drive and/or path.

Setting	Description
Eject When Finished	Select to eject the disc after burning.
Close Media	Select to finalize the media after burning so that it is no longer available for writing.

4. If using a removable disc, insert the disc in the burner.

5. Select START.

Create or edit a worklist filter

You can create a filter to customize what information appears on the My Exams worklist.

1. On the My Exams worklist, select the Create Filter button.

Create Filter
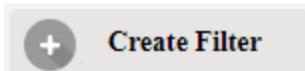

2. In the Filter Settings screen, type a filter name, and then select columns and type values by which to filter.

Example: To show only patients whose names begin with "W" :

3. Select SAVE.

4. To use the filter, select it in the Select filter dropdown list.

5. To edit a filter, on the My Exams screen, select the filter settings button, and then select a filter to edit.
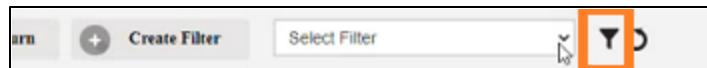

Open a patient chart

You can open a patient chart to view demographics and other patient related information.

1. Select to open the patient list.

2. Double-click a patient to open the patient chart.
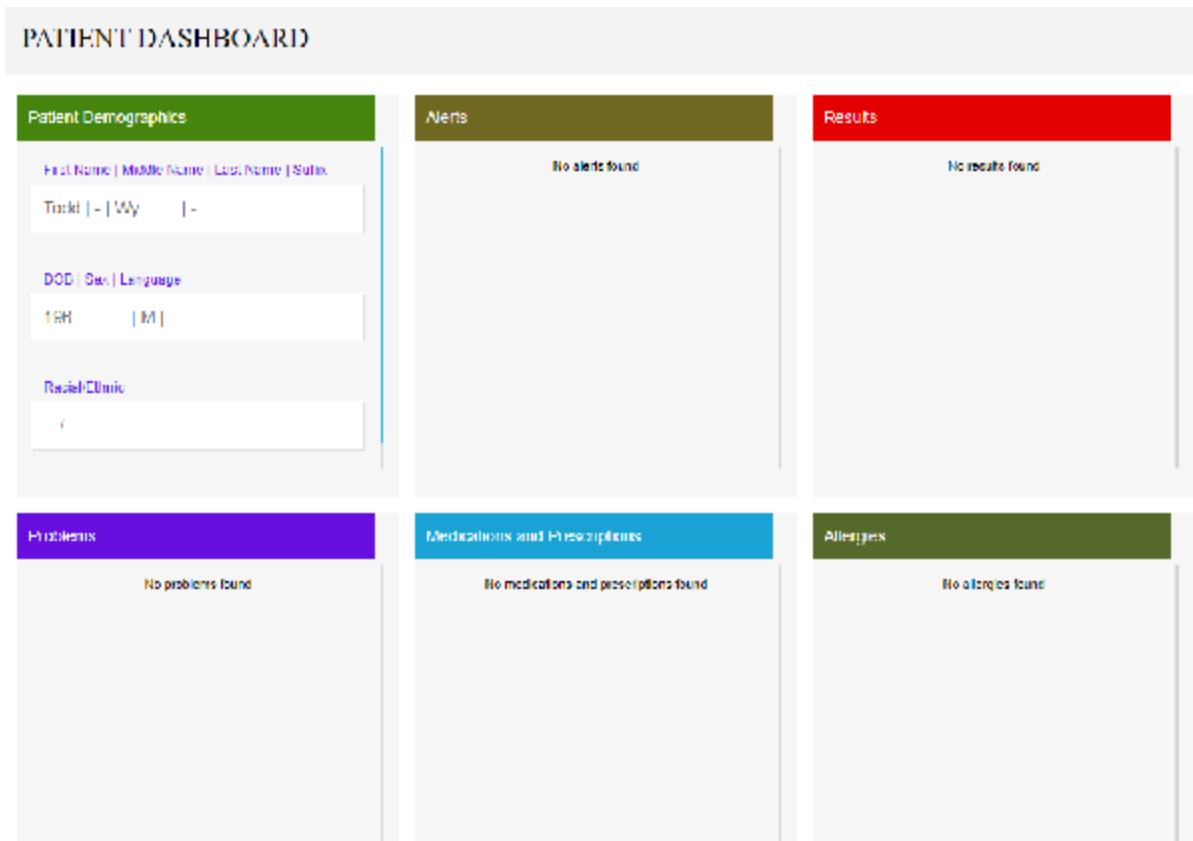

PATIENT DASHBOARD

Attach a document to an exam

You can add a scanned document (such as an order form) to an exam. You can also view an existing document by double-clicking it in the patient document window described below.

1. Select to open the patient list.

2. In the Patient List, in a patient row, select the Upload Patient Document button.
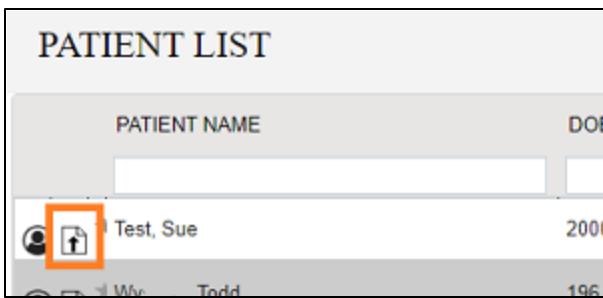

3. In the patient document window, select the Upload Patient Document button.
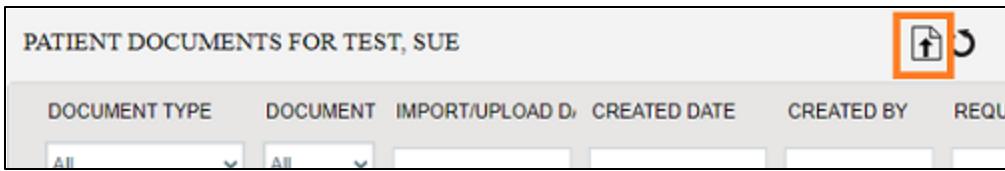

4. In the MY ACCOUNT window, select a document type.
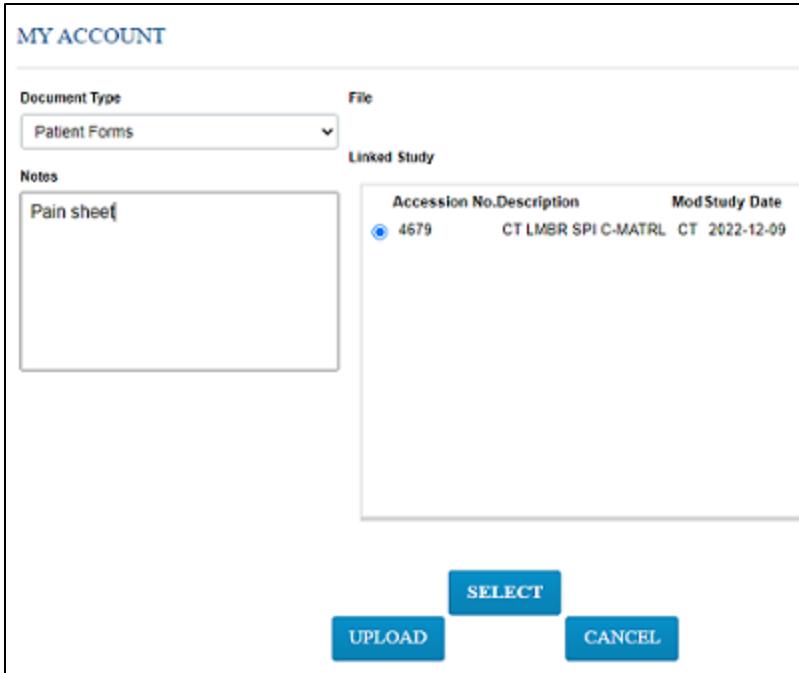

5. Optional. Enter notes.

6. Under Linked Study, select to which exam you want to add the document.

7. Select SELECT, and then browse for and select a document to add.
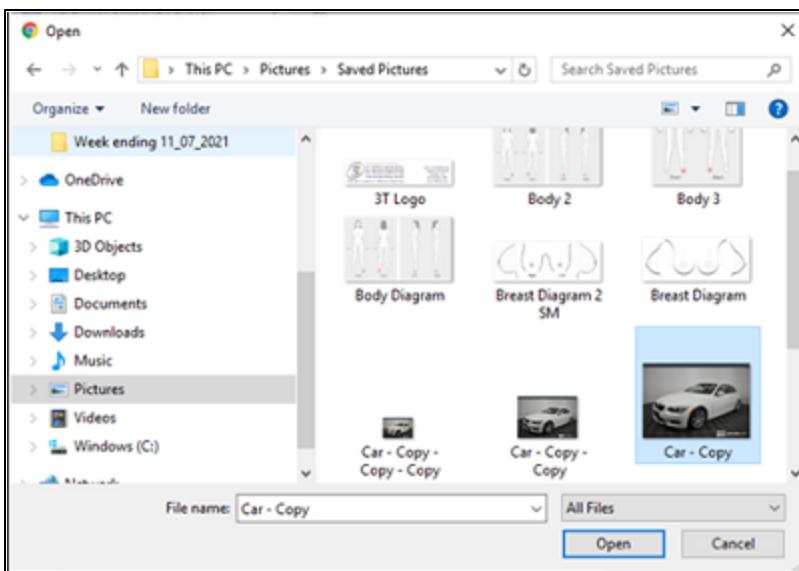

8. Select UPLOAD.

    Result: The document is added to the exam, and the patient document list appears.

Configure passwords and two-factor authentication

You can reset your password at any time. If your site purchased a license, you can also configure two-factor authentication (2FA) as described below.

1. On the admin menu, select the security button.

2. In the My Account dialog, enter a new password, retype to confirm, and then select SAVE.
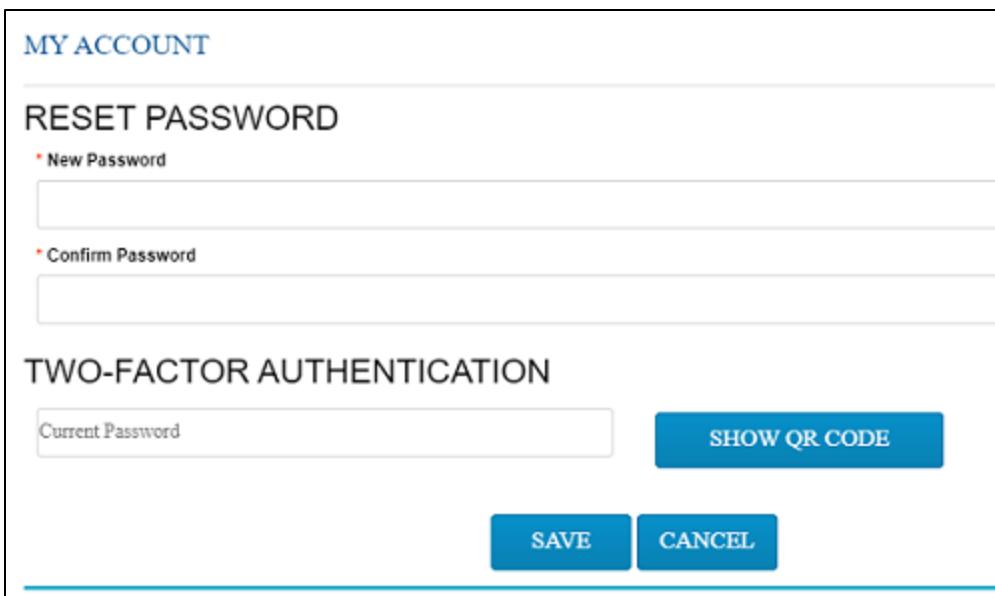

3. Under TWO-FACTOR AUTHENTICATION, type your password, and then select SHOW QR CODE.

4. Use Google Authenticator to read the QR code and generate the one-time passcode, and the enter it into the box and select Verify.

Install Exa Burner

Before you can use the CD Burn function to burn studies to media, you must install the Exa Burner app by following these steps.

1. On the admin menu, select the Exa Burner button.

Result: Chrome downloads the ExaClientViewerSETUP.exe file.
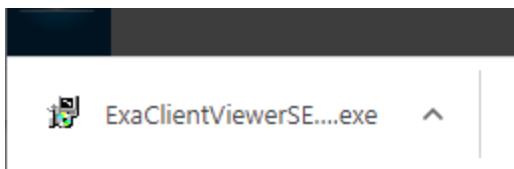

2. Select the file to run, and follow the on-screen prompts.
