Get started with Patient Portal

Set up your account and profile

Patient Portal is a website that you can use to view information about your current and past appointments, update insurance, and more. Your Patient Portal account is safe and secure; only you and your representatives can use it to view your patient records.

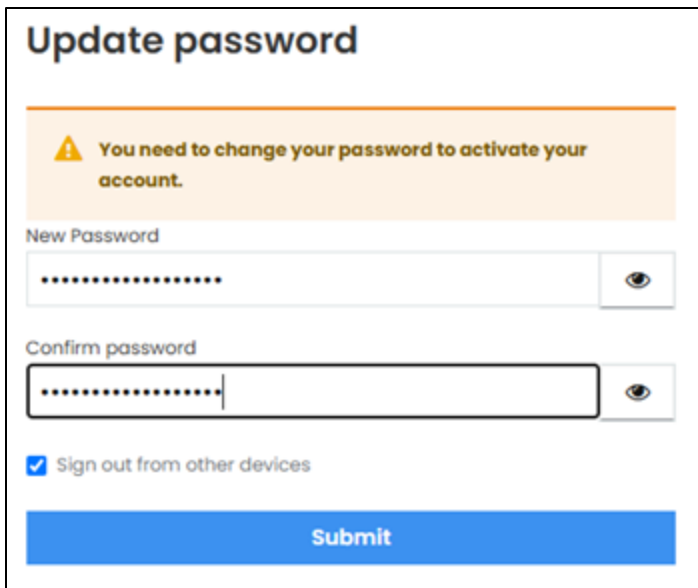

Create an account and sign in

To use Patient Portal, start by selecting the link emailed to you by your healthcare facility (sometimes it may be necessary to copy the link and paste it into the URL box of your web browser). Next:

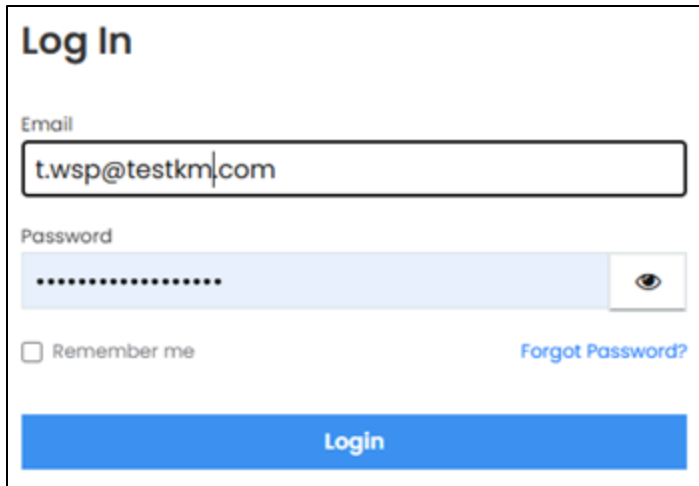

1. On the Patient Portal page, select Click here to proceed.

2. Type a password in the New Password box, re-type it in the Confirm Password box and select Submit.

A screenshot of a web form titled "Update password". At the top, there is an orange warning banner with a yellow triangle icon and the text "You need to change your password to activate your account." Below the banner are two password input fields. The first is labeled "New Password" and the second is labeled "Confirm password". Both fields have a small eye icon to the right, indicating a toggle for password visibility. Below the fields is a checkbox labeled "Sign out from other devices" which is checked. At the bottom of the form is a large blue "Submit" button.

3. On the Log In screen type your email address (this is your user name when you sign-in) and password.
 - Optional: Select Remember me to auto-fill your user name next time you sign in.

The screenshot shows a login form with the following elements:

- Log In** (Section Header)
- Email** label above a text input field containing `t.wsp@testkm.com`.
- Password** label above a password input field with masked characters (dots) and a visibility toggle icon (an eye).
- Remember me** checkbox.
- [Forgot Password?](#) link.
- Login** button.

4. Select Login.
5. If the Mobile Authenticator Setup screen appears, use a mobile device to scan the QR code to obtain a code in your authenticator app.

Mobile Authenticator Setup

⚠ You need to set up Mobile Authenticator to activate your account.

1. Install one of the following applications on your mobile:
 - Google Authenticator
 - Microsoft Authenticator
 - FreeOTP
2. Open the application and scan the barcode:

[Unable to scan?](#)
3. Enter the one-time code provided by the application and click Submit to finish the setup.
Provide a Device Name to help you manage your OTP devices.
