PICA

 A ProAssurance Company

CALIFORNIA PODIATRIC MEDICAL ASSOCIATION WOULD LIKE TO ACKNOWLEDGE
PICA'S CONTRIBUTIONS TO THE ASSOCIATION, ITS MEMBERS, AND THEIR PATIENTS.

THANK YOU

CPMA appreciates PICA's continued support of the Association's annual scientific educational seminar, The Western Foot and Ankle Conference. Don't miss the presentation* on Saturday morning!

**Get 15% off your renewal premiums.*

Virtual Attendees:

ENTER CODE THANKYOUPICA FOR 25 POINTS

Welcome Back!

MISSION STATEMENT

Ensure the commitment of developing educational opportunities to benefit all those in the medical profession who extend their care into the foot, ankle, and lower leg structures arena. It is one of the ultimate goals of the CPMA to provide educational opportunities via conferences and workshops to help expand the knowledge base and technical skills of all involved medical students, residents, educators, providers and ancillary staff.

GET THE 2023 WESTERN APP!

Carry *The Western* in your pocket! The app will be your companion throughout the event and afterward at home!

The Meeting App is available as an app on your smartphone as well as through your computer's browser.

WHILE ONSITE AT THE MEETING, USE THE MOBILE APP TO:

- Complete Evaluations
- Take Notes
- Participate in Q&A and polls During General Sessions
- Network with Attendees and Exhibitors
- Connect with Instructors
- And More!

SIGN IN ONLINE AFTER THE MEETING TO:

- Access the Fluoroscopy Course
- Download Initial Transcripts
- Download eHandouts
- Watch Replays of your Favorite Sessions
- Download Your Notes

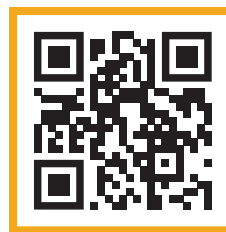

TIP

Get to know the Meeting App! Sign in before the meeting starts to peruse and add items to your agenda, make connections, get to know instructors, and get the link to the On-Demand Fluoroscopy course.

Virtual Attendees: For best viewing, use the Web App in Chrome on a computer with a strong internet connection! Make sure your Chrome is updated for the best possible experience. Don't forget to play the Event Game for a chance to win prizes!

EVENT RULES AND REGULATIONS

The Western expects Attendees and Exhibitors to conduct themselves professionally. Dignity and discretion should be observed at all times. Within the Meeting App, *The Western* reserves the right to block an Attendee or Exhibitor if said Attendee's or Exhibitor's chats, behavior, or other involvement or interactions within the app or during the meeting in any respect are deemed unsuitable. If any attendee or exhibitor is found to be misbehaving or acting against the rules and regulations of *The Western*, they may be blocked, removing any and all CECH sign-ins, social interactions, and Event Game leaderboard points, and their registration may be canceled without refund.

SCAN THE QR CODE OR GO TO:

INNOVATIONS HUB

New at *The Western* this year! The Innovations Hub at the entrance of the Exhibit Hall offers the latest in foot and ankle technology. These booths will have direct hands-on experiences for attendees guided by industry experts, with in-booth saw bone labs running during session breaks. Get innovated and educated with an in-booth experience!

CONTINUING EDUCATION CONTACT HOURS

DOCTORS OF PODIATRIC MEDICINE

California Podiatric Medical Association is approved by the Council on Podiatric Medical Education as a provider of continuing education in podiatric medicine. California Podiatric Medical Association has approved this activity for a maximum of **25 Continuing Education Contact Hours (CECH)**.

RADIOLOGY AND FLUOROSCOPY

Doctors of Podiatric Medicine will be able to attain a maximum of **6 Radiology Continuing Education Contact Hours (CECH)** in the general sessions. **When taking the free on-demand fluoroscopy course and attending all general sessions, a total of 10 Radiology CECH can be earned, including 4 Fluoroscopy CECH*** to meet California Radiology Continuing Education requirements. **An email will be sent to each registrant with a link to set up your password to login to the course.**

NOTE: Continuing education credits are included in the Doctors' General Sessions and may vary dependent upon which sessions and workshops are attended.

* Fluoroscopy units are offered in the free fluoroscopy on-demand course. Registration and successful completion of the course and quiz is required to earn the full 4 fluoroscopy CECH.

IMPORTANT

In accordance with the Council on Podiatric Medical Education (CPME), *The Western* is required to monitor educational session attendance for continuing education (CE) verification.

ONSITE ATTENDEES will have badges with QR codes and must scan their badges twice daily at designated times for credit.

VIRTUAL ATTENDEES must sign in twice daily for credit within the app.

All attendees will be provided transcripts reflecting only the number of Continuing Education Contact Hours earned by scanning/signing in for general sessions and/or workshops. To receive the maximum number of CECH, DPMs must verify their attendance at each of the posted scanning/sign-in times. **Attendees who are registered for workshops or courses outside of general sessions or who miss scanning/sign-in times will have their total CECH adjusted accordingly.**

NEW

Continuing education verification transcripts will be available online after the meeting for general sessions. A copy will also be available in your CECH tab at thewestern.org by August 31, 2023. Each registrant is responsible for reporting attendance to all appropriate licensing boards and agencies requiring continuing education.

PLEASE NOTE: The transcript for the 4 Fluoroscopy contact hours will be available separately via the course website.

CECH SCANNING/ SIGN-IN SCHEDULE

To receive your Continuing Education Contact Hours (CECH), you must verify your attendance during each of the noted times. CPMA is providing up to 25 Continuing Education Contact Hours (CECH) during The 2023 Western Foot and Ankle Conference.

Following are the verification schedule and CECH available for general sessions (subject to change):

THURSDAY, JUNE 22

12:10 – 1:40 PM

Exhibit Hall Booth 1125

3.5 CECH (0 RADIOLOGY CECH)

2:45 – 4:00 PM

Exhibit Hall Booth 1125

3.67 CECH (0.5 RADIOLOGY CECH)

FRIDAY, JUNE 23

12:10 – 1:30 PM

Exhibit Hall Booth 1125

4 CECH (0.4 RADIOLOGY CECH)

2:45 – 4:00 PM

Exhibit Hall Booth 1125

3.83 CECH (0.87 RADIOLOGY CECH)

SATURDAY, JUNE 24

12:10 – 1:30 PM

Exhibit Hall Booth 1125

4 CECH (1.15 RADIOLOGY CECH)

3:30 – 4:00 PM

Disneyland® South Lounge

2 CECH (1.11 RADIOLOGY CECH)

6:00 PM

Disneyland® Center Lounge

IT'S ABOUT RESPECT: PREVENTING WORKPLACE HARASSMENT

0 CECH; MUST SCAN/SIGN-IN FOR CERTIFICATE

Must scan at the end of the program to receive a certificate for the Harassment Prevention Course.

SUNDAY, JUNE 25

10:00 AM – 12:30 PM

Disneyland® Center Lounge

4 CECH (1.98 RADIOLOGY CECH)

PODIATRIC MEDICAL ASSISTANTS

The American Society of Podiatric Medical Assistants is approved by the Commission on Accreditation of Podiatric Medical Assisting Certification as a sponsor of continuing education in podiatric medical assisting. Certified Podiatric Assistants and Certified Medical Assistants will be able to obtain up to **14.83 Continuing Education Contact Hours (CECH)** in the Assistants' Program for their ASPMA and CMA Certifications. To obtain these credits, be sure to have your badge scanned at each scanning interval.

To receive a Certificate of Completion for the clinical sessions on Saturday, each assistant must have their badge scanned at the times and locations designated below. The certificate will be sent to the email provided at registration by August 31, 2023.

Transcripts reflecting credits earned will be available for download after the meeting.

TO ATTAIN CECH, ASSISTANTS MUST SCAN DURING THE FOLLOWING TIMES:

FRIDAY, JUNE 23

8:00 AM and 1:30 PM

Magic Kingdom 3

7.33 TOTAL CECH FOR CERTIFIED ASSISTANTS

SATURDAY, JUNE 24

8:00 AM and 1:30 PM

Monorail ABC

5.5 TOTAL CECH FOR CERTIFIED ASSISTANTS

A Certificate of Completion will be awarded for these sessions.

6:00 PM

Disneyland® Center Lounge

IT'S ABOUT RESPECT: PREVENTING WORKPLACE HARASSMENT

2 CECH FOR CERTIFIED ASSISTANTS

Must scan at the end of the program to receive a certificate for the Harassment Prevention Course.

EDUCATIONAL PROGRAM OBJECTIVES

AT THE CONCLUSION OF THIS PROGRAM, ATTENDEES WILL BE ABLE TO:

Drivers of Healthcare Disparity

- Identify examples of cultural diversity and Social Determinants of Health which may interact with traditional American taught healthcare.
- Understand how differing cultural beliefs and practices can affect our healthcare outcomes.
- Consider how we might modify our practice and approach to improve our outcomes.
- Question whether improved outcomes are best achieved by combining evidence-based medicine with sensitivity to cultural practices and social determinants of health.

Walk This Way

- Recognize essential components of gait analysis
- Appreciate nuances of gait analysis to improve diagnostic ability
- Understand how neurologic conditions impact gait
- Identify how to differentiate between neurologic and non-neurologic changes in gait
- Identify the characteristic changes in gait seen in patients with peripheral neuropathy
- Understand how changes in gait caused by peripheral neuropathy can lead to fall risk

We All Fall Down

- Understand factors that impact fall risk
- Appreciate the methods used to assess fall risk
- Recognize pearls to improve diagnostic ability when determining fall risk
- Recognize how impaired vision can impair balance
- Appreciate assessment tools used to assess vision as a component of fall risk
- Appreciate the need for a multi-disciplinary team to assess fall risk
- Appreciate the risks associated with polypharmacy
- Understand how medications can influence fall risk
- Identify patients who can benefit from shoes and bracing to prevent falls
- Understand components of shoes and braces to decrease the risk of falling

Eye of the Tiger

- Understand gender differences in care and prevention of injuries
- Understand biomechanical and gait differences in gender
- Understand the Athletic Triad in recognition and treatment
- Understand biomechanical causes of leg pain in athletes
- Understand main causes of leg pain and how to identify them
- Review best treatment methods of common leg pain injuries
- Understand common injuries in endurance athletes
- Understand importance of training methods in endurance sports
- Review importance of biomechanical causes of injuries
- Understand common injuries in kids
- Review why children are different than adults in types of injuries
- Understand treatment and rehabilitation approaches in children

When I'm Back on My Feet Again

- Understand what Kinesiotaping does
- Review the difference between K-taping and athletic taping
- Understand and appreciate the specific technique and application for foot and ankle protection
- Understand and appreciate what 3-D printing process is
- Appreciate the difference in comparison to casting and scanning technique
- Understand role of 3-D printing and its advantages in practice
- Understand the role of technology assisted assessments
- Appreciate how it improves performance in athletes
- Understand practical application of these assessments
- Understand role of biomechanics exam in injury prevention of runners

Managing Ulcers: Skin Deep

- Appreciate the updated complex wound management guidelines
- Understand the rationale for changes in the updated guidelines
- Recall the WIfI classification for diabetic ulcers
- Understand the latest revisions to the WIfI classification
- Appreciate factors that negatively impact wound healing
- Understand diagnostic tests used to identify the factors impacting wound healing
- Appreciate treatment options to enhance wound healing
- Differentiate between systemic and local pressurized oxygen therapy and non-pressurized local oxygen therapy
- Appreciate the evidence supporting use of pressurized oxygen therapy
- Identify candidates for in office surgical procedures for wound care
- Appreciate the role of soft tissue releases and local flaps to improve wound healing

Get on Your Feet and Conquer Joint Pain

- Differentiate between diagnoses of joint pain in the foot and ankle
- Recognize the indications for tapping a joint
- Appreciate the value of joint aspiration
- Appreciate when cytology can lead to a proper diagnosis
- Differentiate between cytology tests
- Apply appropriate treatment protocols for metabolic joint disease
- Understand the proper medical management needed for patients with metabolic joint disorders

Torn

- Appreciate the different diagnostic tests used to image tendons
- Apply the benefits of the diagnostic tests used to image tendons to select the appropriate test for specific pathology
- Appreciate what causes longitudinal tendon ruptures
- Understand the various techniques used to treat longitudinal tendon ruptures to optimize patient outcomes
- Recognize the causes of recalcitrant Achilles tendinopathy
- Appreciate the impact of biomechanics and gait patterns that may negatively impact Achilles tendinopathy
- Understand the basis for the treatment options for recalcitrant Achilles tendinopathy
- Appreciate the new treatment options for tendinopathy
- Understand the evidence supporting the use of the new treatment for tendinopathy

Everybody Hurts

- Differentiate between painful and non-painful diabetic neuropathy
- Understand the physiologic changes that cause pain in peripheral neuropathy
- Identify some treatment options to manage painful neuropathy
- Appreciate the changes made in the updated CDC guidelines for opioid use
- Identify alternative pharmacotherapy alternative to opioids to manage pain
- Recognize the role of opioids in acute, post-operative pain
- Identify strategies to minimize opioid prescriptions in the post-operative period
- Appreciate the pathophysiology of complex regional pain syndrome
- Recognize the latest changes in treatment options for patients with complex regional pain syndrome

The Claim You Don't See Coming: What Happens When Your Patient Dies?

- Understand the different components of a professional liability case and how they may be handled

Fractures: Bad to the Bone

- Understand the role of the soft tissue envelope in fracture repair
- Identify methods of preserving the soft tissue preservation in fracture repair
- Appreciate metabolic factors that impact fracture healing
- Identify treatments to mitigate metabolic factors that impact fracture healing
- Appreciate challenges in forefoot fractures
- Identify techniques to mitigate challenges in forefoot fractures
- Recall the Lauge-Hansen classification
- Recognize the potential flaws in the Lauge-Hansen classification
- Identify the potential benefits of regenerative medicine in fracture healing
- Evaluate the literature supporting the use of regenerative medicine in fracture healing
- Understand the various regenerative medicine treatment options for fracture management

You're Only Human So Shake it Off

- Recognize pre-operative, peri-operative, and post-operative complications and potential sequelae
- Understand actions that could be taken to prevent pre-operative, peri-operative and post-operative complications
- Understand potential evidence-based approaches to manage pre-operative, peri-operative and post-operative complications

Hallux Valgus: Knocks Me Off My Feet

- Appreciate the evidence supporting bunions being pathologic vs. an inconvenience
- Appreciate the evidence-based treatments available to help a patient avoid operative intervention for HAV deformities
- Evaluate differences between the newest phase of bunionectomy techniques and their corresponding outcomes
- Understand the causes of failed bunion surgery
- Create evidence-based treatment plans based on causes of failed bunion surgery

Saving Limbs: Don't Stop Believing

- Appreciate interventional radiology techniques
- Understand the potential benefits of interventional radiology in limb salvage
- Identify when interventional radiology benefits limb salvage
- Recognize how soft tissue impacts high risk wounds and deformities
- Appreciate how rebalancing soft tissues can preserve limbs
- Appreciate when biologics can be used in diabetic foot infections
- Understand the evidence behind using biologics in diabetic foot infections
- Differentiate between Charcot neuroarthropathy and osteomyelitis
- Apply ability to distinguish between Charcot neuroarthropathy and osteomyelitis to develop a proper reconstructive surgical plan.
- Understand social disparities of health impact diabetic foot care
- Understand social disparities of health impact lower extremity amputations

eHandouts

The 2023 Western Foot and Ankle Conference will feature virtual handouts free to attendees!

When speakers provide their presentations, notes, or slides, the files will be available in the Meeting App for effortless access any time at your home or office - much better than a stack of paper handouts waiting to be lost when the meeting is over! Find available files right at your fingertips, saving time and trees.

Login to the Meeting App in your browser to easily download the available files by August 1.

Lost & Found

Please deliver any found items to the Information Desk, and feel free to stop by if you've lost something. Items not collected by the end of *The Western* will be discarded or donated.

8:00 - 9:00 AM

Keynote: Drivers of Healthcare Disparity

1 CECH

Moderator: Jonathan Labovitz, DPM

Dr. Henning currently has over 40 years of clinical and administrative experience. From 2004 to 2011 Dr. Henning directed clinical operations for Inland Empire Health Plan, starting as Medical Director and soon transitioning to Chief Medical Officer. In 2015 he joined UnitedHealthcare as CMO to develop and implement United's new Medi-Cal product line.

In 2010 Dr. Henning was appointed to the California Healthcare Workforce Policy Commission by Governor Arnold Schwarzenegger and then reappointed by Governors Brown and Newsom. He served 8 years as chairman of the commission. The commission was created by the Song-Brown Health Care Workforce Training Act to establish standards and make recommendations for the funding of family practice training and residency programs, nursing programs, primary care physician assistant programs, and programs that train primary care nurse practitioners.

Dr. Henning is past President of his state professional society- the Osteopathic Physician and Surgeons of California and has received both the society's Most Valuable Physician and Physician of the Year Awards. He chairs the California Delegation to the AOA House of Delegates. He has chaired many professional committees for the AOA, OPSC and CMA.

Dr. Henning was a charter member of the governing board for the Inland Empire Health Information Exchange and has been involved with numerous state programs such as TeleHealth, Behavioral Health integration, chronic disease management, Patient Centered Medical Home, and Disability Rights.

He continues to serve on the Board of Directors for The Health Professions Education Foundation, Touro University Medical Group, and the California Graduate Medical Education Council.

Prior to his work at IEHP, Dr. Henning spent 15 years as Director and practicing physician of a prominent San Diego primary care group. From 1994-1995, he served as Hospital Chief of Staff and subsequently as a member of his local hospital governing board.

Besides his vast accomplishments in the medical community, Dr. Henning has 17 years of teaching experience, including 11 years as Assistant Professor at the College of Osteopathic Medicine of the Pacific. He has been an attending and teaching physician in the Family Practice Residency Program at Riverside County Regional Medical Center. In addition, he has been a supervising physician for Preventative Medicine Residents at Loma Linda University.

Dr. Henning earned his medical degree from Western University of Health Sciences in Pomona, California. He completed a one-year internship at Pacific Hospital of Long Beach before embarking on a two-year residency at Phoenix General Hospital in Arizona. He holds a Bachelor of Science degree from the University of California, Irvine, and has completed Leadership Programs with Dale Carnegie, the Alembic Program, and the United Physician Executive Programs.

DOCTORS' GENERAL SESSIONS

THURSDAY, JUNE 22

9:00 – 10:00 AM

WALK THIS WAY

1 CECH

Moderator: Tim Dutra, DPM, MS

9:00 – 9:15 AM

Pearls for Gait Analysis

Douglas Richie, DPM, FACFAS, FAAPSM

9:15 – 9:35 AM

Identifying Neurogenic Causes of Imbalance

Von M. Homer, PhD, AEP, BOCPD

9:35 – 9:50 AM

Peripheral Neuropathy Impact on Balance and Gait

Cary Costa, DPT

9:50 – 10:00 AM

Q&A – Ask your question in the Q&A tab of the Meeting App!

10:00 – 10:40 AM

BREAK

Visit Exhibits and try out the latest tools and products in the Innovations Hub – Complimentary Continental Breakfast

10:40 AM – 12:10 PM

WE ALL FALL DOWN

1.5 CECH

Moderator: Tim Dutra, DPM, MS

10:40 – 11:00 AM

Assessing Fall Risk

Cary Costa, DPT

11:00 – 11:20 AM

Becoming a Visionary Can Prevent Falls

Serena Sukhija, OD, FAAO

11:20 – 11:45 AM

The Impact of Polypharmacy on Balance and Fall Risk

Sea Yean An, PharmD

11:45 AM – 12:05 PM

Improving Postural Stability with Orthoses and Bracing

Kevin Rosenbloom, CPed

12:05 – 12:10 PM

Q&A – Ask your question in the Q&A tab of the Meeting App!

12:10 – 1:40 PM

LUNCH BREAK

Visit Exhibits and try out the latest tools and products in the Innovations Hub – CECH Scanning – Concession lunch – Wheel of Prizes Raffle Drawing

1:40 – 3:20 PM

EYE OF THE TIGER

1.67 CECH (Including 0.5 Radiology CECH)

Moderator: Tim Dutra, DPM, MS

SATURDAY, JUNE 24

7:30 – 9:30 AM

THE CLAIM YOU DON'T SEE COMING: WHAT HAPPENS WHEN YOUR PATIENT DIES?

CPMA has designated an unrestricted educational grant from PICA to support this program.

2 CECH

Moderator: Ross E. Taubman, DPM, FACFAS

PICA policyholders can earn a 15% premium discount by attending the PICA risk management lecture at The Western. Doctors of Podiatric Medicine must be registered for The Western to attend this lecture.

In this presentation you will hear about a real-life claim from the viewpoint of the doctor and how the attorneys (both plaintiff and defendant) might have prepared for the case. Throughout the presentation you will see and hear what goes into preparing for a trial. In addition, you will receive risk management pearls on things that you can do now to decrease your risk.

In this presentation we will:

- Describe the case a fellow podiatrist experienced including taking the case to trial.
- Provide understanding of the different components of a professional liability case and how they may be handled.

During the lecture we will ask for audience participation so be sure to bring your phone!

7:30 – 9:30 AM

The Claim You Don't See Coming: What Happens When Your Patient Dies?

Michael R. Lowe, Esq.

Gene M. Pascarella, DPM, FACFAS, MBA

Wilbert R. Vancol, Esq.

9:30 – 10:10 AM

BREAK

Visit Exhibits and try out the latest tools and products in the Innovations Hub – Complimentary Continental Breakfast

IT'S ABOUT RESPECT: PREVENTING WORKPLACE HARASSMENT

0 CECH

Moderator: Devon Glazer, DPM, FACFAS

This course provided for all attendees complies with the training mandated by the State of California. Attendees must scan their badges at the end to earn a certificate for this course. Scanning for this will take place as you exit the lecture hall at 6:00 PM.

This two-hour course provides all the elements required to enable employees and management personnel to successfully assert a defense to sexual harassment and other unlawful harassment claims.

With the information provided in this course, participants will learn how to prevent, communicate about, and manage these difficult situations effectively – without disrupting productivity.

4:00 – 6:00 PM

It's About Respect: Preventing Workplace Harassment

Dale Mask has been a co-founder and a principal of Alliance Training and Consulting, Inc. since 2002. Dale's expertise lies in human resources, management, and supervision. He has served as content developer and technical expert developing training programs in human resource management, employment law, anti-harassment, ADA, FMLA worker's compensation, and management topics ranging from critical thinking to discipline.

DOCTORS' WORKSHOPS

AND ON-DEMAND COURSE

TOMORROWLAND

A WORLD OF INNOVATIONS!

THURSDAY, JUNE 22

1:30 – 4:00 PM

INNOVATIONS IN BIOMECHANICS: GAIT ANALYSIS, DIGITAL ORTHOTIC CASTING AND PRESCRIBING

Room: Castle AB (Fantasy Tower)
2.5 CECH (Limited to 24 Learners)

Attendees will receive direct training on understanding gait analysis and parlaying that into modern orthotic casting techniques.

This course is geared for every podiatrist who wants to perfect their orthotic prescription skill set.

The attendees will become educated via didactic and hands-on experience in understanding:

- Gait analysis and physical factors affecting the mechanics of the lower extremities during closed chain kinetic gait.
- How to translate findings of the gait analysis into prescribing recommendations to correct pathomechanical issues of the foot, ankle, and leg.
- Updated digital casting techniques for foot orthotic and ankle foot orthotics.

Instructors:

Douglas Richie, DPM, FACFAS, FAAPSM
Jeff Root

FRIDAY, JUNE 23

8:30 – 11:30 AM

INNOVATIONS IN MINIMAL INCISION BUNIONECTOMY SURGERY (CADAVER)

CPMA has designated an unrestricted educational grant from Arthrex, Inc. to support this program.

Room: Castle AB (Fantasy Tower)
3 CECH (Limited to 24 Learners)

Attendees will receive hands-on training of MIS techniques to be applied to forefoot pathology.

This course is designed for surgeons wanting to expand their knowledge of this emerging technology.

The attendees will become educated via didactic and hands-on experience in understanding:

- Patient selection for MIS bunionectomies
- Surgical technique for MIS bunionectomies
- Possible complications and how to address them for MIS bunionectomies

Instructors:

Noman Siddiqui, DPM, FACFAS
Raquel Sugino, DPM

1:30 – 4:30 PM

INNOVATIONS IN EXTERNAL FIXATION (SAW BONES)

CPMA has designated an unrestricted educational grant from Paragon 28 to support this program.

Room: Monorail ABC (Fantasy Tower)
3 CECH (Limited to 24 Learners)

Attendees will receive hands-on training on the basics and nuances of becoming a proficient external fixation surgeon.

This course is geared for those who want to develop or hone their skill set on this expanding technology.

The attendees will become educated via didactic and hands-on experience in understanding:

- Pathological conditions that can be addressed with external fixation
- Patient selection criteria for external fixation
- Basics of application of ring and pin to bar external fixation
- How to address complications with external fixation

Instructors:

Devon N. Glazer, DPM
Jacob Wynes, DPM

1:30 – 5:15 PM

INNOVATIONS IN ORTHOPLASTICS (CADAVER)

CPMA has designated an unrestricted educational grant from Trice Medical Concepts to support this program.

Room: Castle AB (Fantasy Tower)
3 CECH (Limited to 24 Learners)

Attendees will receive hands-on training in flap preparation, flap dissection, and appropriate applications of orthoplastic techniques.

This course is geared for the limb salvage surgeon. Due to its popularity last year, we have expanded the level of training for this year's workshop.

The attendees will become educated via didactic and hands-on experience in understanding:

- Patient selection criteria for Orthoplastics procedures and corresponding pathology
- How to appropriately prepare surgical sites for orthoplastic procedures
- Utility skin and muscle flaps
- Adjunct procedures that pair well with orthoplastics for a good outcome
- How to address complications with orthoplastic procedures

Instructors:

Dominic A. Rizzo, DPM
Raquel Sugino, DPM

ON-DEMAND

Fluoroscopy Patient/Provider Safety and Surgical Technique Pearls* ✦

4 CECH (4 Radiology CECH, including 4 Fluoroscopy CECH)

This workshop will be added to each DPM registration when registering for General Sessions. Free access to this course will be provided to all DPM attendees. An email will be sent to each registrant with a link to set up your password to login to the course. Please allow 4-5 business days after you register to have your account set up. If you are unable to locate the email after 5 business days, please contact onlineeducation@westernu.edu.

This fluoroscopy course provides the necessary continuing education credit hours for your California Supervisor and Operator Protection and Safety license. It provides important information regarding protocols to minimize patient and provider exposure to radiation, documentation requirements for hospitals and surgical centers and fluoroscopy principles and uses.

Instructor: Marlena Jbara, MD

See the course details and learning objectives online at www.thewestern.org.

* Denotes presentation which provides radiology continuing education contact hours (CECH).

✦ Denotes presentation which provides fluoroscopy continuing education contact hours (CECH).

Scanning for Harassment Prevention Course

Radiology Review Course

The Western Radiology Course is now available online, year-round, and apart from the annual conference. Certified Radiology Technicians can now take the 12-hour home study course at their leisure without the need for any additional software.

This program updates every June 1.

For more info, visit: bit.ly/pmradiology

Every journey begins with a single step.

You don't need to have
it all figured out.

At PICA, we're with you every
step of the way.

We are more than just a
provider of medical
professional liability insurance.

As a trusted partner,
we take the time to assess your
needs and assist you in
choosing the policy coverage
that best suits
you and your practice.

PICA

 A ProAssurance Company

We are here to help you
through every step of your journey.
