

# INSTALLATION & ONGOING SUPPORT

## We're here to enhance your proficiency.

The SONIMAGE® HS1 Compact Ultrasound System offers tremendous potential for your practice and we're **committed to helping you realize that potential**. That's why the HS1 System comes with 8 hours of customized startup training and setup support at your facility, along with ongoing Remote Assist support. Initial installation support includes:

Hands-On Scanning	System Installation	Exam Preset Customization	Workflow Optimization
Screen Menu Customization	Protocol Guidance	Physician Training	Patient Case Support

**Remote Assist** helps keep your SONIMAGE HS1 System running smoothly and efficiently, providing remote assistance for troubleshooting, training and service-related issues, without waiting for a Konica Minolta representative to visit your facility.

- Assistance for AIUM Accreditation
- Remote software installation
- Applications training for new features and modalities
- Training for additional staff following initial applications training
- Quick response for diagnosing service issues
- Set-up and support for IT features
- Reinstall exam presets and system configurations as needed
- Access to applications support after installation
- Create image presets and annotations

# In-depth education in your areas of interest.

Take a deeper dive into specific procedures, with webinars and procedural videos offered through Konica Minolta University at [km-university.com](http://km-university.com). In addition to videos and webinars, the **Konica Minolta University site houses a variety of ultrasound resources**, including clinical images and white papers, that will be useful in your practice.

### VIDEO TOPICS INCLUDE:

*Ultrasound of the AC Joint*

*Ultrasound of the Biceps Tendon*

*Ultrasound of the Hip*

*Ultrasound of the Rotator Cuff – Infrapinatus*

*Ultrasound of the Rotator Cuff – Labrum and Spinoglenoid Notch*

*Ultrasound of the Rotator Cuff – Subscapularis*

*Ultrasound of the Rotator Cuff – Supraspinatus*

*Scanning Techniques for Ultrasound-Guided Knee Injections*

*Scanning Techniques for Ultrasound-Guided Shoulder Injections*

*Scanning Techniques for Ultrasound-Guided Hip Injections*

*Scanning Techniques for Ultrasound-Guided Elbow Injections*

*Scanning Techniques for Ultrasound-Guided Plantar Fascia Injections*

*Scanning Techniques for Ultrasound-Guided Ankle Injections*

## E-LEARNING RESOURCES

# Ultrasound education software.

Control when, where and how you learn, with the most respected and widely used ultrasound education system. Konica Minolta offers the mskNAV™ Musculoskeletal Ultrasound software for tablets. Providing **robust instruction, hands-on training, assessment and reference guides** you need to build your confidence, elevate your skills and **do more with ultrasound**.

### mskNAV™ MUSCULOSKELETAL ULTRASOUND SOFTWARE

Designed for use as a tutorial during practice scanning or live exams, mskNAV puts intuitive reference guides at your fingertips when you need them most—even at the bedside.

- Accelerated program for learning and navigating MSK ultrasound
- Developed by professionals who specialize in MSK
- Complies with guidelines established by AIUM and ARDMS
- Earn up to 66 AMA PRA Category 1 credits

# PRECEPTORSHIP & OFFSITE TRAINING

## Learn at your convenience.

There's nothing like learning directly from the experts. Konica Minolta offers invaluable opportunities for you to do just that, with our preceptorship program and regional workshops for MSK ultrasound training.

### Preceptorship Program:

Shadow an expert practitioner in the field of musculo-skeletal ultrasound for a full day, for individualized advice and insight on MSK scanning, ultrasound guidance for injections, efficient workflow, reimbursement and more.

### Hands-on Workshops:

Our UGPLearningHub™ leverages the deep technical and clinical knowledge of MSK ultrasound KOLs and Konica Minolta experts, in education offerings to fit your needs, including dedicated learning centers in **Atlanta, GA, Chicago, IL, Anaheim, CA**, and the **NYC** area. Two vouchers covering the cost of 2 days of training are included in the purchase of a Konica Minolta ultrasound system.\* For more information, visit [km-university.com](http://km-university.com).
